Human Relations Department

Date: July 20, 2012

To: Construction Workforce Board

From: Phillip Yelder, Director

Subject: May 2012 Narrative for the Construction Workforce Reports

Construction Workforce Action Update:

The Construction Workforce ordinance applies to all construction contracts the City entered into after July 1, 2007 that will require more than 800 construction labor hours and with an estimated cost that exceeds $324,000. In addition, on December 15, 2009 the Statutory Agencies adopted the City's construction workforce reporting as embodied in Ordinance No. 070504.

The established Company Wide goals for minority and female workers are 10 percent and 2 percent respectively. The hours for the month of May 2012 are depicted in the titled May 2012 Detail Report. This report consists of the KCMO City projects followed by the Statutory Agencies' reports. Workforce hour totals for the month of May 2012 are as follows:

	Total	Minority	%	Female	%	KCMO	%
Companywide prime	302,107	42,166	13.96	14,414	4.77	16,431.50	5.44

Human Relations Department
Workforce Report

May 2012 Craft Total

Each month, contractors and their subs are required to submit at least two workforce reports: companywide prime or companywide subcontractor report and a project specific monthly workforce report. The contractor's companywide data for construction project combines their work across the Metropolitan Statistical Area. Their subcontractors do as well. HRD compiles this data in a number of ways.

In this report, you will find four attached sheets. The sheets are a tabulation of every report submitted for the month of May. Going down the left hand column is a breakdown of scopes of work by both craft and skill level. The rows across the top break the workers down by gender and ethnicity. The very last column tabulates KCMO residents.

At the bottom of each page, you will find the total numbers for each of the genders and ethnicities. It is from here that we gather the data used in the Director's Narrative and repeated below for your convenience.

	Total	Minority	%	Female	%	KCMO	%

Workforce Report

May 2012

Construction Workforce Companywide & Project specific detail reports

Report explanation:

Each month, contractors and their subs are required to submit two individual reports. A project specific report and a companywide report. The companywide report contains data for all worked performed on any construction projects across the Metropolitan Statistical Area. This information is then submitted to HRD, who compiles the data in a number of ways.

In this report you will find the detailed breakdown of workforce numbers generated by the contractors. Each page is double sided. The front page gives the project information as well as a tabulation of total hours, minority hours, female hours and KCMO resident hours. Contractors are required to maintain a level of 10% minority and 2% female companywide hours throughout the lifetime of their projects. The back of each page is the same report, but further broken down into specific ethnicities and genders. Every report listed is available in even further detail through our online B2GNow system which is where the contractors submit each month's reports.

Because the workforce goals for contractors are for the lifetime of the project, a contractor's minority workforce may fall below the recommended goals, with the intent of meeting those goals prior to the contract expiration. HRD continually monitors the situation and if this becomes a consistent pattern, contractors will be asked to clarify what steps they are taking to either meet the workforce goals or show good faith efforts as to why those goals were unobtainable.

May analysis:

In May, there were 45 prime contractors to report companywide hours. All of them reported except Ideker and Musselman Hall. 23 primes fell below the 10% minimum threshold for minority workers. 3 subcontractors fell below the 10% minimum threshold for minority workers. 32 primes fell below the 2% minimum threshold for female workers. 12 subcontractors fell below the 2% minimum threshold for female workers. Letters of non-compliance to contractors have been sent out to some of the non-complying contractors asking for a breakdown of hiring and activities to establish their goals by the contract's end.

The total contract dollar value of the projects monitored through the city is over $220 million.

Workforce Report

May 2012

CONSTRUCTION WORKFORCE STATUTORY AGENCY DETAIL REPORT

Report explanation:

Statutory agencies are the quasi-governmental organizations that provide tax abatement or other assistance through the construction project. As of December 2009, HRD monitors the workforce component of projects originating from these agencies. HRD is currently monitoring projects from TIF, LCRA and PIEA.

Each month, contractors and their subs are required to submit at least four workforce reports: companywide prime, companywide subcontractor, project specific prime and project specific subcontractor. The contractors turn in a report on their companywide data for construction projects across the Metropolitan Statistical Area. Their subcontractors do as well. Each project also has a report from the prime contractor and the subs on the project. HRD compiles this data in a number of ways.

In this report you will find the detailed breakdown of workforce numbers generated by the contractors. Contractors are required to maintain a level of 10% minority and 2% female companywide hours throughout the lifetime of their projects. Reporting is preferred on-line however; some of the older projects are still submitted electronically through our e-mail box at HRDContractCompliance@kcmo.org and can be viewed in further detail by request.

Because the workforce goals for contractors are for the lifetime of the project, a contractor's minority workforce may fall below the recommended goals, with the intent of meeting those goals prior to the contract expiration. HRD continually monitors the situation and if this becomes a consistent pattern, contractors will be asked to clarify what steps they are taking to either meet the workforce goals or show good faith efforts as to why those goals were unobtainable.

May analysis:

In May, there were 7 individual developers reporting workforce data. Four primes fell below the 10% minimum threshold for minority workers. Two subcontractors fell below the 10% minimum threshold for minority workers. Six primes fell below the 2% minimum threshold for female workers. Six subcontractors fell below the 2% minimum threshold for female workers. The lack of female workforce on the statutory agency projects mirror those concerns we are currently experiencing on our list of City projects

The total contract dollar value of for the projects monitored is $357,087,000.00.

Workforce Report

May 2012

Cumulative Workforce Monthly Report

Report explanation:

In this report you will find the cumulative totals of all the contractor reports for companywide and project specific numbers. The top section is a tally of the corresponding entry for every previous month. It's usually a one year running total. The lower sections show the most recent month or two months worth of data. The electronic version has every month's totals available on it but, due to paper considerations, only the document's first page is prepared in the printed version. The full document is available upon request.

May 's Report:

In the section titled May 2012, you will find the same numbers as were generated for the May Craft report. The top sections are those corresponding numbers from May 2011 through May 2012. In total there have been approximately 6.16 million companywide hours and 2.25 million project specific hours reported over the previous year. Approximately 83.5% of the work was done by Caucasian males, 13.9% performed by minorities, and 3.2 % by female. In conclusion, the overall contractor's performed 4% above their workforce goals for minorities and 1% above goals for females. Additionally, KCMO resident hours consisted of 9.6% of hours reported.
