

Minor Infrastructure Drawing Requirements

A **drawing** with measurements showing the **location of the work** in relation to the home or building is required. Internet images or maps, hand-drawn pictures, and computer drawings may be used.

Drive Approach: Two measurements are needed. First, measure the length of the drive approach in feet from the property line to the edge of the street. Then, measure its width in feet. The width of the drive approach is the same as the width of the driveway.

Sidewalk: Two measurements are needed. First, measure the width of the sidewalk in feet. Then, measure the total length of all the squares to be replaced in feet.

Curb: Measure the total section of the curb to be replaced in linear feet.
