

RECYCLE AND GET UP TO \$200*!

SATURDAY

NOV. 4
2023

8:00 AM TO 12:00 PM

MANUAL CAREER TECH CENTER
1215 E. TRUMAN RD.
KANSAS CITY, MO 64106

Only available to Evergy customers
residing in Kansas City, MO.

Appliance Recycling Event Courtesy Evergy and City of Kansas City

How it Works

Bring your old but still working refrigerator, freezer, room a/c, air purifier or dehumidifier to recycle and get paid for each appliance. Simply drive up and drop off. We'll take your old appliances from your car, then Evergy will email you a check. It's that easy!

Rebate and Appliance Details

Receive \$25 per each small appliance (room a/c, dehumidifier, or air purifier), and \$75 per large appliance (refrigerator or freezer).

*There is a limit of two small and two large appliances that will be accepted per Evergy Missouri residential address.

To make your drop-off experience faster, please bring a copy of your recent Evergy bill or account number.

Smart Thermostats Available for \$0

Our Thermostat Program lets you control and monitor your energy usage from anywhere using a free or discounted smart thermostat. Once you've upgraded, you'll be eligible to participate in Energy Savings Events, during which you and your community can save energy together.

What to expect when you upgrade to a smart thermostat:

- **Lower Energy Bills.** Customers see an average savings of \$145 a year
- **Forget to change the temperature when you leave the house?**
Adjust your thermostat from your smartphone
- **Less Waste.** Simply put, smart thermostats use less energy

Visit evergy.com/tstat to get your free Google Nest or ecobee3 lite smart thermostat and enroll in Evergy's Thermostat Program.

Home Weatherization

Evergy and Spire's Income-Eligible Weatherization Program provides energy-saving home improvements to homeowners and renters who meet certain income qualifications—all at no cost to you. These upgrades improve your home's health and safety while lowering your energy costs by up to 35%. To see if you might qualify for expert guidance, free in-home upgrades, and financial assistance, visit evergy.com/IEW.

Schedule a Free Energy Savings Kit Delivered by Evergy

You'll get a 1-hour walk-through assessment of your home and receive a summary of efficiency tips and suggestions for ways to save on your energy costs. During the assessment you could also receive free energy-saving products, including:

- Up to 20 LED bulbs
- Up to four faucet aerators
- Up to two efficient-flow shower heads
- Up to two smart power strips
- Water heater pipe insulation (installed on hot and cold pipes for up to six feet from water heater tank, when accessible)

Use your Evergy Account Number to schedule an Energy Savings Kit online today at evergy.com/kit.
