Kansas City, Missouri 64106

(816) 513-1928
Fax: (816) 513-1280

Honorable Mayor
City Council
Board of Trustees
Members of the System

I am pleased to submit, on behalf of your Board of Trustees and staff, the 2023 Annual Report of the Firefighters' Pension System of the City of Kansas City, Missouri. The annual report covers the operations of the Pension System for fiscal year ended April 30, 2023. The System's fiscal year 2023 operating results and financial position are presented in conformity with generally accepted accounting principles.

This report is a product of the combined efforts of the Retirement Division staff and advisors functioning under the Board's leadership. The annual report is designed to provide you with complete and reliable information on the management and operations of the System.

The report consists of five sections: The Introductory Section includes a summary of plan provisions, Board information, and System Advisors and Advisory Relationships. The Actuarial Section details the System's funded status, plan liabilities and membership. The Investment Section includes the investment overview, summary and results. The Financial Section includes the Independent Auditor's Report and historical financial highlights. The Membership Section details pensions awarded and member deaths during the fiscal year.

The Board of Trustees and staff remain focused on our mission of paying promised benefits and prudently investing trust assets. We are also committed to delivering a high level of customer service to active and retired members of the System. The reports, charts and schedules contained in this publication summarize the results of our efforts for the fiscal year 2023. We trust you will find this annual report helpful in understanding your retirement system.

Very truly yours,

Barbara J. Davis
Executive Officer

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
ADVISORY RELATIONSHIPS
April 30, 2023**

The Board of Trustees is a policy making body and is responsible for the System's proper operation. The System is administered under its guidance and direction, subject to such rules, regulations and directives as adopted.

The Board consists of four ex-officio members, four elected members and a retired member. The ex-officio members hold office by virtue of their positions with the City. They are the Fire Chief, the Directors of Finance and Human Resources and the City Treasurer. The elected Trustees are voted into office from the active membership of the System for three-year terms, with terms staggered in one-year increments. As a result, an election is held annually for the expiring term. The retiree member is a non-voting position and is jointly appointed by Local 42 and Local 3808 of the International Association of Firefighters.

The Human Resources Department employs a full-time Executive Officer. The Executive Officer heads the Retirement Division of the City Human Resources Department, serves as Secretary to the Board of Trustees and, with Board approval, contracts for professional services. The City also provides office space and support services through the Human Resources Department and accounting services of the Finance Department. The Board of Trustees conducts monthly business meetings.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
SUMMARY OF PLAN PROVISIONS
April 30, 2023**

The following summarizes provisions of the Firefighters' Pension System of the City of Kansas City, Missouri Trust (System) as amended by City Ordinance through December 2020.

The System was established July 1, 1953, by Ordinance No. 16643. It is a contributory defined benefit plan as referenced in Section 414 of the IRS Code. The System's mandate is to provide retirement, survivor and disability benefits. Management of the System's investment portfolio facilitates this mandate, with a current net position of \$630 million.

Members of the System do not participate in Social Security. Effective March 1, 2001, the benefits provided are not subject to an offset or reduction for Workers' Compensation benefit payments received.

Eligibility:

Membership is required upon employment for all employees of the Fire Department with firefighting duties who are not simultaneously accumulating pension benefits or creditable service under another pension system. Employees hired prior to April 20, 2014, are Tier 1 members. Employees hired on or after April 20, 2014, are Tier 2 members.

Contributions:

Effective May 1, 2014, all members contribute 10.55% of base salary. Contributions are excluded from Missouri and Federal Income Tax under employer pick-up provisions of the IRS Code Section 414(h)(2). The City pays the remaining cost of the System.

The employer contribution rate paid by the City for the fiscal year 2023 was 39.00% of covered payroll as of May 1, 2022.

Effective December 31, 1999, 1% of additional member and 2% of additional employer contributions fund the Firefighters' Health Insurance Subsidy Fund within the Trust.

City contributions are not identifiable by individual members and are only received by members as part of a monthly retirement benefit.

Voluntary Retirement:

Tier 1: A member is eligible for voluntary retirement upon completion of 25 years of creditable service, regardless of age.

Tier 2: A member is eligible for voluntary retirement upon completion of 27 years of creditable service, regardless of age.

Creditable Service:

Creditable service is used in the calculation of the member's benefit and is the total years and months of service the member has accumulated in the System.

At retirement, a member may elect to convert accrued sick leave or vacation leave to creditable service up to the maximum number of hours allowed for conversion, but not to exceed 25 years of creditable service for Tier 1 members, or 27 years of creditable service for Tier 2 members.

The conversion rate is 215 hours to one month of creditable service. Hours converted to creditable service are not payable in cash to the member upon retirement.

Repurchase of Creditable Service:

Members who terminate service and later return to service may receive credit for such prior service after they have been reemployed for at least two, but not more than three, consecutive years, and have repaid withdrawn contributions plus interest at the rate then assumed for actuarial calculations.

Portability of Creditable Service:

Members with at least 10 years creditable service may transfer or purchase creditable service from a previous Missouri public employer.

A purchase of service may be requested for any portion of the previous service. The member must accept the valuation of service as determined by the System's actuary. The valuation is based upon the member's current salary and age.

The member is responsible for depositing with the System (from previous Pension Plan or member savings) the total value of service credited, including employee and employer contributions. After the transfer is finalized, the member's creditable service with the transferring organization is eliminated.

The value of creditable service purchased will be added to the member's creditable service with this System.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
SUMMARY OF PLAN PROVISIONS
April 30, 2023**

Benefits:

The base benefit formula for members of the System is 2.5% of average final compensation multiplied by creditable service.

Average final compensation is represented by the highest 24 months of base salary in the last 10 years prior to retirement. The maximum benefit is 80% of average final compensation.

A minimum of 25 years creditable service for Tier 1 members and 27 years creditable service for Tier 2 members is required. Retirement benefits are paid according to options elected by the member with spousal approval prior to retirement. The options available include the following:

a) Members may withdraw all or a portion of their accumulated contributions and interest and receive an actuarially reduced lifetime pension. The member's annual cost-of-living adjustment and surviving spouse annuity are not reduced by election of this option.

b) Members may elect a 100%, 75% or 66 2/3% surviving spouse annuity option. If one of these options is chosen, the member's base benefit is actuarially reduced, and upon the member's death, the surviving spouse receives 100%, 75% or 66 2/3% of the member's reduced base benefit. The member's annual cost-of-living adjustment is not reduced by election of this option.

Minimum Benefits:

Effective August 1, 1986, minimum monthly benefits were instituted for voluntary, disability and surviving spouse benefits. The minimum benefit is \$600 for members, calculated prior to any reductions for either withdrawal of member contributions or election one of the three optional surviving spouse annuities, and \$275 for surviving spouses. Any cost-of-living adjustments are calculated based on the original base benefit, without regard to these minimums.

Disability Retirement:

Disability is defined as a state or condition that prevents the member from performing the duties of a firefighter for the rest of the member's life. Two doctors approved by the System's Board of Trustees must confirm the disability in writing. Retirement is effective on the first day of the month following Board approval of the disability.

a) **Duty Disability** is a disability directly due to and caused by actual performance of duty as a firefighter. The pension is 62.5% of average final compensation, but not less than 62.5% of the then current maximum salary payable to the rank of a firefighter.

b) **Non-Duty Disability** is a disability not caused by actual performance of firefighting duties. No benefit is payable if the disability is caused while engaging in any occupation or performing any work for another employer or in self-employment. Members must be under the age of 65 and have 10 or more years of creditable service. The pension is equal to 25% of the average final compensation plus 2.5% per year of average final compensation for the number of years and months of creditable service in excess of 10 years, not to exceed a maximum monthly pension equal to 80% of the member's average final compensation.

Cost-of-Living Adjustments:

An annual adjustment for retirement, disability and survivor benefits is paid under these conditions:

Tier 1: A 3% non-compounded cost-of-living adjustment is paid to all System beneficiaries who retired on or after June 28, 1970.

Tier 2: A non-compounded, cost-of-living adjustment will be paid to all System beneficiaries following the 27th anniversary of the Tier 2 member's employment if the funding ratio of the pension fund, as shown by the System's most recent actuarial report, is equal to or greater than 80%.

The increase will be equal to the percentage increase in the prior 12 months of the final national Consumer Price Index for All-Urban Consumers published prior to December 31 in advance of the next year's adjustment but shall not exceed 2.5%.

a) The adjustment is applied to the annuity as calculated upon retirement date prior to any reduction for withdrawal and/or election of a joint survivor optional annuity.

b) The adjustment is paid on all annuities effective on or before the preceding January 1. Effective for retirements after January 1, 2021, the adjustment is paid on all annuities effective on or before the preceding February 1.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
SUMMARY OF PLAN PROVISIONS
April 30, 2023**

c) The adjustment is made on annuity payments dated May 1, and the adjusted annuity remains unchanged until the next May 1.

Health Insurance Subsidy:

The Board of Trustees annually determines the monthly health insurance subsidy. This subsidy is payable for life to eligible members.

To qualify for a subsidy, members must have at least 25 years of creditable service if a Tier 1 member, or 27 years of creditable service if a Tier 2 member or receive a duty disability annuity.

If a member dies in the line of duty, one subsidy is payable to the member's eligible surviving spouse or eligible surviving children. The monthly subsidy is \$500, as of May 1, 2021.

Death Benefits:

The System provides the following benefits upon a member's death:

a) A funeral benefit of \$2,000 is paid to the surviving spouse or named beneficiary.

b) A pension equal to 50% of the accrued pension, but not less than 25% of the member's average final compensation, is payable to the surviving spouse, unless the member elected a 100%, 75% or 66 2/3% surviving spouse option, provided the marriage occurred on or before retirement.

If the member dies before retirement and the death is duty related, the surviving spouse's benefit is the member's accrued pension, but not less than 62.5% of the member's average final compensation or 62.5% of the then current maximum salary payable to the rank of a firefighter, whichever is greater.

The surviving spouse's pension of an active member who dies before retirement with at least 25 years of creditable service, Tier 1, or 27 years of creditable service, Tier 2, is calculated at the date of death as if the member elected the 100% joint survivor option.

c) A monthly child's allowance of \$100 is payable to each eligible child until age 18. The allowance may continue after age 18 if the child is unmarried and physically or mentally incapacitated from earning a livelihood.

A child also remains eligible until age 21 if enrolled as a full-time student at an accredited institution of higher learning. In the absence of a surviving spouse, the surviving spouse's pension is divided equally and payable to any eligible children.

Resignation from Service:

Upon termination of employment, members with less than 10 years of creditable service must withdraw their accumulated contributions and interest from the System. If a member has less than six years of service, a service charge ranging from 2% of contributions (five years of service) to 10% (less than one year of service) is applied.

Members with 10 or more years of service may elect a deferred pension and waive the option to withdraw their contributions and interest at the time of separation.

In situations of divorce, no Domestic Relations Order (DRO) distributions are paid to the ex-spouse until the member separates employment or retires. Payment is only made if there is an approved DRO on file with the Retirement Division.

Deferred Annuity:

Deferred annuities are calculated based upon the benefit formula described earlier. The annuity cannot exceed 62.5% of the member's average final compensation.

Deferred annuities are payable at age 50.

Members may withdraw their contributions and interest and forfeit the deferred annuity at any time before benefit payments commence.

Members also may accumulate additional creditable service if re-employed by the City's Fire Department with firefighting duties before benefit payments commence.

If a member elects a deferred pension and dies before age 50, the member's contributions and interest are paid to the beneficiary. If death occurs after age 50, survivor benefits are payable, but are pro-rated based upon actual years of creditable service in relation to 25 years for Tier 1 members or 27 years for Tier 2 members.

ACTUARIAL SECTION

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
ACTUARIAL OVERVIEW
April 30, 2023**

This section summarizes the results of the actuarial valuation of the Firefighters' Pension System of the City of Kansas City, Missouri Trust as of May 1, 2023. The purpose of the valuation is to determine the System's financial condition and the City's required contributions.

The experience over the past year is summarized as follows:

- The number of members who were active as of May 1, 2023, decreased from 1,004 to 1,003. The average age of members decreased from 40.23 to 40.03, the average service decreased from 14.04 to 13.95 years and the average annual salaries increased from \$71,220 to \$77,128.
- During the past year, 56 new pensions were awarded to 36 voluntary pensions, 2 deferred pensions, 2 disability pensions, 14 widows and children of deceased firefighters, and 2 Qualified Domestic Relations Orders (QDROs). As of May 1, 2023, average pensions of \$4,102,927 per month were paid to 720 retired members and 254 beneficiaries and QDROs. The previous year, pensions totaling an average of \$3,950,822 per month were being paid to 701 retired members and 249 beneficiaries and QDROs.
- City contributions for the fiscal year 2023 totaled \$27.3 million and employee contributions totaled \$7.6 million. Benefit payments totaled \$49.2 million, and refunds of employee contributions totaled \$2.7 million.
- The actuarial value of assets increased by \$14.9 million to \$652.2 million. The market value of assets decreased by \$23.1 million to \$602.4 million.
- The Fund achieved a rate of return on the actuarial value of assets of 4.60% for fiscal year 2023. On a market value basis, the rate of return was -1.45%. The Fund's actuarial assumed rate of return was 7.00%.
- The System's funded ratio is 70.2% on an actuarial basis.

INVESTMENT SECTION

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM
INVESTMENT OVERVIEW
April 30, 2023**

The investments of the System are based primarily on an investment authority known as the “prudent person rule”. The prudent person rule establishes a standard for fiduciaries, which includes anyone that has authority with respect to the System. This standard states that fiduciaries will discharge their duties solely in the interest of fund participants and beneficiaries with the degree of diligence, care and skill which prudent men and women would ordinarily exercise under similar circumstances in a like position.

The prudent person rule permits the Fund to establish an investment policy based upon certain investment criteria and allows for the delegation of investment authority to professional investment advisors. The Board’s adopted Statement of Investment Policy outlines the responsibility for the investment of the Fund and the degree of risk that is deemed appropriate for the System. Investment advisors are retained to execute the investment strategy in accordance with the Board’s Policy.

The Board of Trustees, with input from staff and consultants, evaluates risk and return factors of potential investment strategies and opportunities and approves appropriate alternatives.

Proper funding and healthy investment returns are very important to the financial soundness of the System. The ratio of investment earnings to total revenue is evidence of the System’s solid financial management.

An integral part of the overall investment policy is the strategic asset allocation policy. This allocation mix is designed to provide an optimal mix of asset categories. This emphasizes a maximum diversification of the portfolio that protects the System from declines that a particular asset class may experience in any given period.

Investment decisions are made based on expected return for a given level of risk. The goal is to optimize the return of the portfolio, as opposed to maximizing the rate of return. The optimal portfolio mix is one that carefully equates expected rate of return, with expected risk of all investment categories utilized by the System. In setting the optimal mix of assets for the portfolio, the Board has developed a strategic (long-term) asset allocation policy, which incorporates a diversified mix.

The System invests in traditional assets (domestic stocks, government and corporate bonds, mortgages, and cash) and non-traditional assets (international stocks and international bonds). A modest amount of System assets has also been diversified into private equity, real estate, and hedge funds.

During the fiscal year 2023, the System remained well diversified.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
City of Kansas City, Missouri
Firefighters' Pension System

Opinion

We have audited the financial statements of the City of Kansas City, Missouri Firefighters' Pension System (the Plan), as of and for the years ended April 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of April 30, 2023 and 2022, and the changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and information included in the required supplementary information section listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Kansas City, Missouri Firefighters' Pension System (the Plan) is the defined benefit retirement plan for firefighters of Kansas City, Missouri (City). The Plan was established by City ordinance in 1953 and is administered by the Retirement System Board of Trustees to provide retirement, disability, survivor and death benefits to its members and beneficiaries.

This discussion and analysis of the Plan's financial statements provides an overview of the Firefighters' Pension System's operations and investment performance for the fiscal years ended April 30, 2023 and 2022, with selected comparative information for the year ended April 30, 2021, and should be read in conjunction with the financial statements and notes to the financial statements, which follow this section.

Overview of the Financial Statements and Accompanying Information

- The financial statements presented in this report are the statements of fiduciary net position as of April 30, 2023 and 2022 and the statements of changes in fiduciary net position for the years ended April 30, 2023 and 2022. These statements reflect resources available for the payment of benefits as of year end, and the sources and uses of those funds during the year.
- The notes to the financial statements are an integral part of the financial statements and provide facts and detailed information to assist the reader in understanding the statements. Information in the notes includes a description of the Plan, a summary of significant accounting policies, the method used to value investments and a summary of investments.
- Required supplementary information presents schedules related to employer contributions and the funding of the Plan.

2023 Financial Highlights

The Plan's net position decreased by 3.7% as seen in the statement of fiduciary net position. Global markets were volatile at the beginning of the fiscal year due to inflation, fears of recession and the Federal Open Market Committee's (FOMC's) actions to continue to increase the federal funds rates to slow down demand. In October, there was a strong rebound in U.S. equity markets due to higher than expected corporate earnings reports, and GDP was up 2.6% following two straight quarters of decline but volatility continued, as the FOMC continued to raise rates, which resulted in bank failures. The Plan's investment portfolio returned -0.4% for the year, which underperformed the return of the Policy Portfolio benchmark. The Plan's U.S. large cap equity, non-U.S. equity, global equity and fixed income segments posted positive returns, the U.S. small cap equity segment posted a negative return, but performance was strong on a relative basis, and the return for real assets was negative. Non-U.S. equity was the best performing asset class on an absolute basis, while real assets had the lowest return.

Total additions, as shown on the statement of changes in fiduciary net position, were \$29.2 million, a 260% increase from the prior year. Much of this increase was due to a \$20.2 million decrease in investment loss, as investment performance improved from the prior year. Benefits paid to members increased by 3.8%, mainly due to cost-of-living adjustments, and refunds of contributions decreased 43.1%, as fewer members retired and exercised their option at retirement to withdraw some or all of their employee contributions and interest. The 14.4% increase in administrative expenses was mainly due to an increase in disability medical evaluation and fact finder fees, salaries and legal fees.

FIREFIGHTERS' PENSION SYSTEM**

MANAGEMENT'S DISCUSSION AND ANALYSIS

2023 Operational Highlights

The Plan's emerging markets equity manager was terminated due to performance issues and a new manager was hired. The Plan added a five percent allocation to private equity, which will be funded over time from the Plan's global equity segment. Ongoing cash needs were met through liquidation of domestic equity and fixed income securities.

2022 and 2021 Comparative Summary of Fiduciary Net Position

	<u>April 30, 2022</u>	<u>April 30, 2021</u>	<u>Amount Change</u>	<u>Percentage Change</u>

2022 Financial Highlights

The Plan's net position decreased by 6.6%, as seen in the statement of fiduciary net position. Global markets started out strong but turned in September, due to the spread of the coronavirus Delta variant, persistent high inflation, and supply chain bottlenecks. Then in December, the Federal Open Market Committee (FOMC) confirmed it would end its bond-buying program earlier than anticipated to reduce inflationary pressures on the economy. Additionally, projections indicated that the FOMC would increase the federal funds rates as many as three times in 2022, to stem inflationary pressures. In February, markets continued to contract, as geopolitical tensions in Ukraine and Russia led to Russia's invasion, and the U.S., along with many other countries, implemented economic sanctions against Russia. Then in March, the FOMC instituted its first increase in the federal funds rate since 2018. Finally, in April, as CPI reached 8.5%, the FOMC signaled it would evaluate all options to tame inflation, both through an aggressive wind down of balance sheet assets and additional increases in the federal funds rate. The U.S. GDP also unexpectedly contracted in the first quarter of 2022, at an annualized rate of 1.4%, due to several factors including the widening trade deficit, a deceleration in the pace of inventory accumulation and decreasing government spending. The Plan's investment portfolio returned -4.5% for the year, which underperformed the return of the Policy Portfolio benchmark. All segments of the Plan posted negative returns except for real assets. Real assets was the best performing asset class, while non-U.S. equities had the lowest returns on an absolute basis.

Total additions, as shown on the statement of changes in fiduciary net position, were \$8.1 million, a 95.8% decrease from the prior year. Contributions grew \$2.6 million, due an increase in the actuarial required contribution rate, and net investment income decreased by -\$188.9 million, compared to the prior year, due to negative performance. Benefits paid to members increased by 4.3%, due in large part to cost-of-living adjustments, and refunds of contributions increased 81.5%, as more retiring

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

MANAGEMENT'S DISCUSSION AND ANALYSIS

members exercised their option at retirement to withdraw some or all of their employee contributions and interest. The 52.9% increase in administrative expenses was mainly due to an increase in disability medical evaluation fees, actuarial fees and legal fees.

2022 Operational Highlights

No investment manager or other service provider changes occurred in the period. Ongoing cash needs were met through liquidation of domestic and global equities.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - The City of Kansas City, Missouri Firefighters' Pension System (the Plan) is a contributory, single-employer, defined benefit pension plan covering all employees of the Firefighting Division of the City of Kansas City, Missouri (the City). The Plan is considered part of the City's financial reporting entity and is included in the City's annual comprehensive financial report as a pension trust fund. Employees should refer to the Plan Document for more complete information.

Basis of Accounting - The financial statements are prepared on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when they are due and when the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when paid in accordance with the terms of the Plan.

Investments - Investments are valued at fair value as follows:

Government securities, asset-backed securities, corporate bonds and domestic debt obligations are valued at fair value based on prices quoted by a major dealer in such securities.

Common stock and foreign equities are valued at fair value based on closing prices reported on the composite summary of national securities exchanges or on over-the-counter or bid prices.

Collective trusts, partnerships and short-term investment funds consist primarily of non-marketable investments in various venture capital funds, corporate finance funds and private partnerships (collectively, Portfolio Funds). These funds are primarily invested in a diversified portfolio of equities, fixed income, real estate and alternative or non-traditional investments. These investments are recorded at fair value based on financial data, which is generally at an amount equal to the net asset value per share or the Portfolio Fund's proportionate interest in the net assets or net equity of the Portfolio Funds as determined by each Portfolio Fund's general partner or investment manager. The estimated value of such investments is subject to uncertainty and, therefore, may differ from the value that would have been used had a market for such investments existed.

Investment transactions are accounted for on a trade-date basis, and dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis. Realized gains and losses from investments are determined on an average cost basis.

Tax Status - The Retirement Board believes that the Plan is designed in accordance with section 401(a) of the Internal Revenue Code (Code), and is therefore tax exempt, and is currently being operated in compliance with the applicable requirements of the Code.

Administrative Expenses - Plan administrative salaries, duplicating, telecommunications and travel expenses are included in the Plan's administrative expenses when incurred. The City provides office space, a portion of administrative and clerical services of the Human Resources Department and accounting services of the Finance Department without any direct charge to the Plan.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - These financial statements considered subsequent events through October 23, 2023, the date the financial statements were available to be issued.

2. PLAN DESCRIPTION

The Plan is established by City ordinances enacted by the City Council. The Plan is administered by the Board of Trustees (Board) of the City of Kansas City, Missouri Firefighters' Pension System. The Board is composed of nine members, four of whom are the Director of the Fire Department, the City's Director of Human Resources, the City's Director of Finance, and the City Treasurer. One is an appointed retired member and the remaining four are elected by the members of the Firefighters' Pension System.

Tier I Member - Those employees hired before April 20, 2014.

Tier II Member - Those employees hired on or after April 20, 2014.

At April 30, 2023 and 2022, the Plan's membership consists of the following:

	2023		Total
	Tier I Members	Tier II Members	
Retirees and beneficiaries currently receiving benefits, and terminated employees entitled to benefits but not yet receiving them	981	2	983

Contributions - Funding is provided by contributions from the Plan's members and the City, and earnings on investments. Firefighters contribute 10.55 percent of their base salary and an additional 1 percent to fund the health insurance subsidy. The City's contribution is set by the City Council in conjunction with its approval of the City's annual budget, based on the actuarially determined contribution rate set by the Plan's consulting actuary.

Based upon the May 1, 2021 and 2020 valuations, the actuary recommended City contribution rates of 39.00 percent and 38.47 percent, respectively, of covered payroll. For the years ended April 30, 2023 and 2022, the City contributed at rates of 38.23 percent and 38.30 percent, respectively, of annual covered payroll. The City Council also contributed 2 percent toward the health insurance subsidy for 2023 and 2022.

Retirement Benefits - Benefit terms for the Plan are established in the City administrative code and can only be amended by the City Council. The Plan provides retirement, survivor, disability and pre-retirement death benefits as noted below:

Tier I Members - Members become vested for retirement benefits after 10 years of service. Members who retire with 25 years or more of creditable service are entitled to an annual pension of 2.5 percent of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80 percent of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated Plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An automatic annual cost-of-living adjustment of 3.0 percent non-compounded is provided in the Plan. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

2. PLAN DESCRIPTION (CONTINUED)

Tier II Members - Members become vested for retirement benefits after 10 years of service. Members who retire with 27 years or more of creditable service are entitled to an annual pension of 2.5 percent of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80 percent of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated Plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An annual cost-of-living adjustment, not to exceed 2.5 percent non-compounded is provided in the Plan if the prior year funding ratio is equal to or greater than 80 percent and will be equal to the percentage increase in the prior 12 months of the final national consumer price index. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

Death Benefits - If an active member dies, the following benefits are paid:

A funeral benefit of \$2,000 to the spouse or named beneficiary.

To the member's spouse until death, a pension equal to one-half of the member's accrued pension, but not less than 25 percent of the member's average final compensation. The minimum monthly benefit is \$275 to all spouses. Certain benefit provisions have been established for deaths sustained in the performance of a member's duties, or deaths of active members prior to retirement who have achieved 25 years or more of creditable service.

To the member's children, an allowance of \$100 a month each until the attainment of age 18, unless certain conditions are met whereby benefits may continue.

To the member's designated beneficiary or estate, if there is no surviving spouse or qualifying child, any remaining member contributions and interest.

If a retired member dies, the following benefits are paid:

To the member's spouse until death, a retirement benefit equal to one-half of the member's normal retirement benefit.

To the member's designated beneficiary or estate, if there is no surviving spouse, any remaining member contributions and interest.

Disability Benefits - Disability benefits are available for members and are based on an average final compensation. The Plan provides for a minimum monthly payment of \$600 to all current and future disability retirees.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

2. PLAN DESCRIPTION (CONTINUED)

Health Care Subsidy - Effective May 1, 1991, the Plan established a subsidy fund (subsidy). The City and active firefighters contribute two percent and one percent of salary, respectively. Prior to April 1 of each year, the Board of Trustees of the Plan establishes the dollar value of the monthly subsidy. The monthly subsidy for the years ended April 30, 2023 and 2022 was \$500.

The subsidy is invested in both fixed income and equity securities and is stated at fair value. Investments totaled \$3,986,476 and \$4,172,751 at April 30, 2023 and 2022, respectively.

The actuarial valuations do not consider the subsidy's fiduciary net position, which at April 30, 2023 and 2022 was \$3,986,476 and \$4,172,751, respectively. According to the City ordinance that established the subsidy, if the fiduciary net position available for the subsidy is zero, the subsidy will no longer be available. For the years ended April 30, 2023 and 2022, City contributions for the subsidy were \$3,109,148 and \$3,040,912, respectively, and employee contributions were \$724,874 and \$704,956, respectively.

3. DEPOSITS AND INVESTMENTS

The City administrative code and ordinances passed by the City Council provide that Plan investments may include, but are not limited to, obligations of the U.S. government, state of Missouri and municipal corporations, including school districts, corporate bonds, real estate mortgages and common and preferred stocks. The Plan purchases investments from Securities and Exchange Commission registered securities broker-dealers and banks through its investment managers. Investments in U.S. Treasury obligations are held at the Federal Reserve Bank through the customer account of a financial institution.

Investment Policy - The asset type and classes, target allocation and ranges that have been approved by the Board are shown below. All percentages are based on fair values. The Board has authorized Plan staff, with the guidance from the investment consultant, to rebalance the portfolio in accordance with the current strategy guidelines below.

Asset Type and Class	2023		2022	
	Range	Target	Range	Target
Large Cap Equity	12% - 22%	17%	10% - 20%	15%
Small Cap Equity	6% - 16%	11%	5% - 15%	10%
Non-U.S. Equity	12% - 22%	17%	10% - 20%	15%
Long/Short Equity	0% - 10%	5%	5% - 15%	10%
Global Equity	0% - 10%	5%	0% - 10%	5%
Private Equity	0% - 10%	5%	0% - 10%	5%
Fixed Income	25% - 35%	30%	25% - 35%	30%
Real Estate	5% - 15%	10%	5% - 15%	10%

Securities Lending Transactions - City ordinances and the Plan's Board policies permit the Plan to use investments of the Plan to enter into securities lending transactions, which are loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

3. DEPOSITS AND INVESTMENTS (CONTINUED)

The Plan has contracted with The Northern Trust Company as its third-party lending agent to lend domestic equity and debt securities for cash collateral of not less than 102 percent of the fair value and international debt and equity securities of not less than 105 percent of the fair value. At April 30, 2023 and 2022, management believes the Plan has no credit risk exposure to borrowers because the amounts the Plan owes the borrowers exceed the amounts the borrowers owe the Plan. Contracts with the lending agent require it to indemnify the Plan if borrowers fail to return the securities, if the collateral is inadequate to replace the securities lent or if the borrowers fail to pay the Plan for income distributions by the securities' issuers while the securities are on loan; therefore, non-cash collateral is not recorded as an asset or liability on the financial statements.

	2023	2022
Fair value of securities loaned	\$ 33,829,553	\$ 28,301,770
Fair value of cash collateral received from borrowers	\$ 34,414,308	\$ 29,512,345

All security loans can be terminated on demand by either the Plan or the borrower. The cash collateral received on each security loan was invested, in accordance with the Plan investment guidelines, in short-term funds. The maturities of the resulting investments generally match the maturities of the securities lending arrangements themselves. The Plan is not permitted to pledge or sell collateral received unless the borrower defaults.

At April 30, 2023, the Plan had the following investments and maturities:

Type	Fair Value	Maturities in Years				Loaned Under Securities Lending Agreements
		Less than 1	1 - 5	6 - 10	More than 10	
U.S. Treasuries	\$ 9,008,500	\$ --	\$ 1,100,625	\$ 1,354,502	\$ 6,553,373	\$ 4,041,601

Collective trusts - real estate	66,703,372					--
	<u>\$ 629,341,374</u>					<u>\$ 28,301,770</u>

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the Plan's securities lending policy, \$33,829,553 and \$28,301,770 were held by the counterparty that was acting as the Plan's agent in securities lending transactions at April 30, 2023 and 2022, respectively.

Investment Concentrations - The following presents investments that represent five percent or more of the fiduciary net position of the Plan, as of April 30, 2023:

Investment	Fair Value
NT Collective S&P 500 Index Fund - Non-Lending	\$ 67,629,191
Acadian Global Equity Fund	62,875,478
Pioneer Multi-Sector Fixed Income Trust	56,983,021

Marathon-London International Fund	52,560,019
JPMCB Special Situation Property Fund	39,399,307

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Plan. As of April 30, 2023 and 2022, the Plan's fixed income assets that are not government guaranteed represented 93 percent and 96 percent, respectively, of the fixed income portfolio. The Plan has not established a policy with regard to credit risk. The following tables summarize the Plan's fixed income portfolio exposure levels and credit qualities at April 30, 2023 and 2022:

Average Credit Quality and Exposure Levels of Nongovernment Guaranteed Fixed Income Securities

<u>Fixed Income Security Type</u>	<u>Fair Value April 30, 2023</u>	<u>Percentage of all Fixed Income Assets</u>	<u>Weighted Average Credit Quality</u>

NOTES TO THE FINANCIAL STATEMENTS

3. DEPOSITS AND INVESTMENTS (CONTINUED)

Each portfolio is managed in accordance with operational guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers and the average credit quality of the overall portfolios.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Plan has not established a policy with regard to interest rate risk. The Plan actually owns an interest in the underlying assets of the collective trusts and the money market funds and the unit values are based on the fair value of their underlying assets.

Effective Duration of Fixed Income by Security Type

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

3. DEPOSITS AND INVESTMENTS (CONTINUED)

**The Plan owns an interest in the underlying assets of the short-term investment funds and the unit values are based on the fair value of their underlying assets. The short-term investment funds do not have a maturity date, even though their underlying assets do have maturity dates of less than one year.

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Plan's foreign currency risk exposure, or exchange rate risk, primarily reside within the Plan's foreign debt obligations and foreign equity holdings through the Plan's various asset managers. The Plan's policy for each specific portfolio does not place limits on the amount of foreign exposure that can be held by the individual asset managers.

Annual Money-Weighted Rate of Return - For the years ended April 30, 2023 and 2022, the annual money-weighted rate of return on the pension plan investments, net of pension plan investment expense, was 0.43 percent and -4.45 percent, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

4. NET PENSION LIABILITY

The components of the net pension liability of the City at April 30, 2023 and 2022 were as follows:

	2023	2022
Total pension liability	\$ 907,095,005	\$ 879,749,268
Plan fiduciary net position	(602,383,893)	(625,484,968)
City's net pension liability	\$ 304,711,112	\$ 254,264,300
Fiduciary net position as a % of total pension liability	66.41%	71.10%

5. ACTUARIAL METHODS AND ASSUMPTIONS

Cheiron, the Plan's actuary, determines the total pension liability. The total pension liability as of April 30, 2023 and 2022 was determined based on an actuarial valuation prepared as of May 1, 2022 and 2021, respectively, rolled forward one year, using the following actuarial assumptions:

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

5. ACTUARIAL METHODS AND ASSUMPTIONS (CONTINUED)

Price inflation	2.50%
Salary increases, including wage inflation	3.0% to 9.5%
Long-term investment rate of return, net of plan investment expense, including inflation	7.00%
Mortality tables:	
Non-annuitant	2010 Public Safety Amount-Weighted Above-Median Mortality Table for Healthy Employees, projected using Scale MP-2021 on a generational basis
Healthy	2010 Public Safety Amount-Weighted Below-Median Mortality Table for Healthy Retirees (multiplied by 1.031 for males and 0.930 for females), projected using Scale MP-2021 on a generational basis
Disabled	2010 Public Safety Amount-Weighted Mortality Table for Disabled Retirees, projected using Scale MP-2021 on a generational basis

The actuarial assumptions were based on the results of the actuarial experience study for the period from May 1, 2016 to April 30, 2021. The actuarial experience study is dated April 22, 2022.

For purposes of calculating the total pension liability, future ad hoc cost of living adjustments (COLAs) of 3.0 percent (simple COLA) were assumed to be granted in all future years for Tier I Members. For Tier II Members, COLA will only be payable if the prior year's funding ratio is greater than or equal to 80 percent and will be equal to the percentage increase in the consumer price index, up to a maximum of 2.00 percent, payable at the 27th anniversary date of hire.

Long-Term Expected Real Rate of Return - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best-estimates arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of April 30, 2023 and 2022 are summarized in the following table:

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

5. ACTUARIAL METHODS AND ASSUMPTIONS (CONTINUED)

Asset Class	April 30, 2023		April 30, 2022	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Equity	17%	7.2%	15%	7.1%
Small Cap Equity	11%	8.6%	10%	8.5%
Non-U.S. Equity	17%	8.6%	15%	8.5%
Long/Short Equity	5%	5.8%	10%	5.7%
Global Equity	5%	7.9%	5%	7.9%
Private Equity	5%	10.6%	5%	10.5%
Fixed Income	30%	2.9%	30%	2.9%
Real Estate	10%	7.3%	10%	7.4%

Discount Rate - The discount rate used to measure the total pension liability was 7.00 percent as of April 30, 2023 and 2022. In the professional judgment of the Plan's actuary, the funding policy of the Plan will result in the Plan's projected fiduciary net position being greater than or equal to the benefit payments projected for each future period. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments.

Sensitivity Analysis - The following sensitivity analysis presents the net pension liability of the City, calculated using the discount rate as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate as of April 30, 2023 and 2022:

	2023		
	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Total pension liability	\$1,026,841,012	\$ 907,095,005	\$ 808,301,519
Fiduciary net position	(602,383,893)	(602,383,893)	(602,383,893)
Net pension liability	<u>\$ 424,457,119</u>	<u>\$ 304,711,112</u>	<u>\$ 205,917,626</u>

Fiduciary net position	(625,484,968)	(625,484,968)	(625,484,968)
Net pension liability	<u>\$ 370,630,785</u>	<u>\$ 254,264,300</u>	<u>\$ 158,242,076</u>

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of fiduciary net position.

Plan contributions are made and the total pension liability is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

7. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at April 30, 2023 and 2022:

	Total Fair Value	April 30, 2023		
		Level 1	Level 2	Level 3
Investments by fair value level				
U.S. Treasuries	\$ 9,008,500	\$ --	\$ 9,008,500	\$ --

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of fiduciary net position.

Equity and short-term investment funds classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Corporate and governmental debt securities and certain collective trusts classified as Level 2 of the fair value hierarchy are valued using third-party pricing services based on market observable information such as market quotes for similar assets, as well as normal market pricing considerations such as duration, interest rates and prepayment assumptions.

The fair value estimates presented herein are based on pertinent information available to management as of April 30, 2023 and 2022. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

7. FAIR VALUE MEASUREMENTS (CONTINUED)

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented below.

	April 30, 2023			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Notice Period
Partnerships ^(A)	\$ 22,119,810	\$ --	Monthly	15 Days

(A) This category is a limited partnership. Investments are open-ended Global Core/Core Plus infrastructure investments.

(B) This category includes collective trust funds. Each invests in equity securities both on the national and international markets listed on public market exchanges.

(C) This category is a fixed income fund that is traded daily. The fund includes U.S. and non-U.S. government, securitized and corporate bonds, and currencies across the entire quality spectrum.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO THE FINANCIAL STATEMENTS

7. FAIR VALUE MEASUREMENTS (CONTINUED)

(D) This category is a common collective trust redeemable quarterly with a 45 day and one day notice period, respectively. Investments are open-ended U.S. Commercial real estate.

(E) This category is a limited partnership domiciled in the Cayman Islands. Investments provide exposure to more than 60 "hedge fund risk premiums" across nine broad strategy groups (event driven, convertible arbitrage, equity market neutral, dedicated short bias, long/short equity, emerging markets, global macro, managed futures and fixed income relative value) with a dynamic and disciplined investment process that aims to provide risk-balanced, long-term exposure to the underlying strategies. The result is a high risk-adjusted expected return stream with low correlation to traditional asset classes.

8. RELATED PARTY TRANSACTIONS

The Plan reimburses the City for the cost of providing financial and other services. Expenses reimbursable to the City totaled \$181,213 and \$176,997 for the years ended April 30, 2023 and 2022, respectively. Amounts charged are expensed during the period incurred.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Changes of benefit and funding terms – The following changes to the plan provisions for the last ten fiscal years were reflected in the valuation as listed below:

5/01/2022 Valuation

- No changes to benefit or funding terms.

5/01/2021 Valuation

- No changes to benefit or funding terms.

5/01/2020 Valuation

- No changes to benefit or funding terms.

5/01/2019 Valuation

- No changes to benefit or funding terms.

5/01/2018 Valuation

- No changes to benefit or funding terms.

5/01/2017 Valuation

- No changes to benefit or funding terms.

5/01/2016 Valuation

- No changes to benefit or funding terms.

5/01/2015 Valuation

- No changes to benefit or funding terms.

5/01/2014 Valuation

- Effective April 20, 2014, member contribution rates increased by 1.00 percent and Tier II has been added to the Plan.

5/01/2013 Valuation

- No changes to benefit or funding terms.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Changes in actuarial assumptions and methods – The following changes to the Plan provisions for the last ten fiscal years were reflected in the valuations as listed below:

5/01/2022 Valuation

- No changes in actuarial assumptions or methods.

5/01/2021 Valuation

- Numerous assumptions have been revised based on the results of the experience study conducted for the period May 1, 2016 to April 30, 2021. These assumptions were incorporated into the GASB 67 disclosures and net pension liability for the Plan's 2022 fiscal year-end. Changes included changes to salary increases including wage growth, mortality tables, discount rate, and expected rate of return.

5/01/2020 Valuation

- No changes in actuarial assumptions or methods.

5/01/2019 Valuation

- No changes in actuarial assumptions or methods.

5/01/2018 Valuation

- No changes in actuarial assumptions or methods.

5/01/2017 Valuation

- All assumptions have been revised based on the results of the experience study conducted for the period May 1, 2011 to April 30, 2016.
- Administrative expense assumption was increased from 0.35 percent of payroll to 0.37 percent of payroll.

5/01/2016 Valuation

- No changes in actuarial assumptions or methods.

5/01/2015 Valuation

- An administrative expense assumption of 0.35 percent of payroll was added. Retirement rates added for Tier II.

5/01/2014 Valuation

- The investment return assumption decreased from 7.75 percent to 7.50 percent.

5/01/2013 Valuation

- No changes in actuarial assumptions or methods.

**CITY OF KANSAS CITY, MISSOURI
FIREFIGHTERS' PENSION SYSTEM**

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The following actuarial methods and assumptions were used to determine the actuarially determined employer contribution reported in the most recent fiscal year, which was based on the May 1, 2021 actuarial valuation:

Valuation Date	May 1, 2021
Timing	Actuarially determined contribution rates are calculated based on the actuarial valuation one year prior to the beginning of the Plan year.

Key Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Entry Age
Asset valuation method	5-year smoothed market. 80% / 120% corridor around market value
Amortization method	30-year layered amortization as a level percent of pay for changes to the unfunded actuarial liability on or after 5/1/2008
Discount rate	7.25%
Amortization growth rate	3.00%
Price inflation	2.50%
Salary increases	Ranges from 8.0% to 3.0%
Cost-of-living adjustments	Tier I: 3.00% simple Tier II: 2.50% simple payable at 27th anniversary of date of hire if the prior year's funding ratio is greater than or equal to 80%
Mortality	Non-annuitant: RP-2000 Combined Non-Annuitant Mortality Table, projected using a modified Scale MP-2015 on a generational basis Healthy: RP-2000 Combined Healthy Mortality Table set forward one year for males and females, projected using a modified Scale MP-2015 on a generational basis Disabled: RP-2000 Combined Disabled Mortality Table projected using a modified Scale MP-2015 on a generational basis
