#### **Independent Auditor's Report**

Retirement Board City of Kansas City, Missouri Firefighters' Pension System Kansas City, Missouri

We have audited the accompanying basic financial statements of the City of Kansas City, Missouri Firefighters' Pension System (the Plan), which comprise the statements of fiduciary net position as of April 30, 2018 and 2017, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the basic financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Retirement Board City of Kansas City, Missouri Firefighters' Pension System Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the City of Kansas City, Missouri Firefighters' Pension System as of April 30, 2018 and 2017, and the changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Kansas City, Missouri October 3, 2018

### Management's Discussion and Analysis April 30, 2018 and 2017

The Firefighters' Pension System of Kansas City, Missouri is the defined benefit retirement plan for firefighters of Kansas City, Missouri. The Firefighters' Pension System was established by City ordinance in 1953 and is administered by the Retirement System Board of Trustees to provide retirement, disability and survivor benefits to its members.

This discussion and analysis of the Firefighters' Pension System's financial statements provides an overview of the Firefighters' Pension System's operations and investment performance during the years ended April 30, 2018 and 2017, with selected comparative information for the fiscal year ended April 30, 2016. Please read it in conjunction with the Firefighters' Pension System's financial statements, which follow this section.

#### Overview of the Financial Statements and Accompanying Information

- The financial statements presented in this report are the Statements of Plan Net Position as of April 30, 2018 and 2017 and the Statements of Changes in Plan Net Position for the years ended April 30, 2018 and 2017. These statements reflect resources available for the payment of benefits as of the year-end, and the sources and uses of those funds during the year.
- The notes to the financial statements are an integral part of the financial statements and provide facts and detailed information to assist the reader in understanding the statements. Information in the notes includes a description of the Plan, a summary of significant accounting policies, the method used to value investments and a summary of investments.
- Required supplementary information presents schedules related to employer contributions and the funding of the Plan.

#### 2018 Financial Highlights

Global financial markets soared during the first three quarters of the year due to U.S. fiscal policy stimulus and expectations of continued global growth. Then in the fourth quarter, volatility was reintroduced in the markets due to expectations of inflation, a repricing of the yield curve and headlines related to global trade negotiations, which somewhat muted the overall positive equity returns and caused slightly negative returns in fixed income. Albeit, the investment portfolio had a strong gross return of 10.1 percent, which compared quite favorably to the 9.1 percent rise in the Policy Portfolio benchmark. All segments of the fund performed relatively well. Non-U.S. equities were the best performing asset class, followed by U.S. equities.

The 6.63 percent rise in plan net position to \$544 million, was largely due to investment income of \$47.5 million. Contributions and benefits grew in ordinary fashion. Administrative expenses rose, primarily due to staffing costs.

#### 2018 Operational Highlights

A U.S. equity manager was terminated due to performance issues. A search was conducted and the manager was replaced. In conjunction with this change, the U.S. large-cap equity allocation was restructured to increase the exposure to passive equities and decrease the exposure to active equities.

The fixed income allocation was also restructured to reduce overall risk. An absolute return strategy was added and funded from a reduction to two existing fixed income managers. Ongoing cash needs were met primarily through the sale of appreciating equity securities.

## Management's Discussion and Analysis April 30, 2018 and 2017

#### 2017 Financial Highlights

Although fixed income market returns were negligible during the period, prices surged in most equity markets. This paved the way to an investment return of 13.7 percent on a gross-basis, which significantly exceeded the Policy Index benchmark return of 11.0 percent. All segments of the Fund performed relatively well compared to benchmarks. The international and global equity, along with fixed income and real assets segments of the Fund all exceeded performance expectations, while the domestic equity segment, in aggregate, slightly underperformed.

The 9.7 percent rise in plan net position, to \$510 million, was fueled by \$59 million of investment income. Contributions and benefits grew in ordinary fashion. Refunds of contributions decreased, as fewer members withdrew their contributions, while administrative expenses increased, due to increased staffing costs and the fees associated with an actuarial experience study.

#### 2017 Operational Highlights

There were no significant changes to the investment structure. Ongoing cash needs were met primarily through the sale of appreciating equity securities.

#### Requests for Information

This financial report is designed to provide members of the City of Kansas City, Missouri Firefighters' Pension System, citizens, investors and creditors of the City of Kansas City, Missouri with a general overview of the Firefighters' Pension System's finances and to demonstrate its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City of Kansas City Missouri Firefighters' Pension System, City Hall, 414 East 12th Street, 10th Floor, Kansas City, Missouri 64106-2705.

There are no other currently known facts, conditions or decisions that are expected to have a significant effect on the financial position or results of operations of the Plan.

Notes to Financial Statements April 30, 2018 and 2017

#### Note 1: Summary of Significant Accounting Policies

#### Reporting Entity

The City of Kansas City, Missouri Firefighters' Pension System (the Plan) is a contributory, single-employer, defined benefit pension plan, covering all employees of the Firefighting Division of the City of Kansas City, Missouri (the City). The Plan is considered part of the City's financial reporting entity and is included in the City's comprehensive annual financial report as a pension trust fund. Employees should refer to the plan agreement for more complete information.

#### Adoption of New Accounting Standard

In 2018, the Plan adopted the provisions of GASB Statement No. 82, *Pension Issues – Amendment of GASB Statements No.* 67, 68 and 73. This statement addresses certain issues that have been raised with respect to Statement No. 67, Statement No. 68 and Statement No. 73. Specifically, GASB 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. Adoption did not have a significant impact on amounts reported or disclosed.

#### Basis of Accounting

The financial statements are prepared on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when paid in accordance with the terms of each plan.

#### Investments

Investments owned are valued at fair value as follows:

Common stock and foreign equities (A) Listed – closing prices are reported on the composite summary of national securities exchanges or (B) Over-the-counter – bid prices.

Collective trusts, partnerships and short-term investment funds consist primarily of non-marketable investments in various venture capital, corporate finance funds and private partnerships (collectively referred to as "Portfolio Funds"). These funds are primarily invested in a diversified portfolio of equities, fixed income, real estate and alternative or non-traditional investments. These investments are recorded at fair value based on financial data, which is generally at an amount equal to the net asset value per share or the Fund's proportionate interest in the net assets or net equity of the Portfolio Funds as determined by each Portfolio Fund's general partner or investment manager. The estimated value of such investments is subject to uncertainty and, therefore, may differ from the value that would have been used had a market for such investments existed.

### Notes to Financial Statements April 30, 2018 and 2017

Investment transactions are accounted for on a trade-date basis (date order to buy or sell is executed), and dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis. Realized gains and losses from investments are determined on an average cost basis.

#### Administrative Expenses

Plan administrative salary, duplicating, telecommunications and travel expenses are included in the Plan's administrative expenses when incurred. The City provides office space, a portion of administrative and clerical services of the Human Resources Department and accounting services of the Finance Department without any direct charge to the Plan.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### Note 2: Plan Description

The Plan is established by City ordinances enacted by the City Council. The Plan is administered by the Board of Trustees of the Firefighters' Pension System of Kansas City, Missouri (the "Board"). The Board is composed of nine members, four of which are the Director of the Fire Department, the Director of Human Resources, the Director of Finance and the City Treasurer. One is an appointed retired member and the remaining four are elected by the members of the pension system.

### Notes to Financial Statements April 30, 2018 and 2017

At April 30, 2018 and 2017, the Plan's membership consists of the following:

		2018	
	Tier I	Tier II	
	Members	Members	Total
Retirees and beneficiaries currently receiving benefits	,		
and terminated employees entitled to benefits but			
not yet receiving them	931	-	931
Current employees			
Vested	643	-	643
Nonvested	144	194	338
Inactive	5	1	6
Total	1,723	195	1,918
		2017	
	Tier I	Tier II	_
	Members	Members	Total
Retirees and beneficiaries currently receiving benefits			
and terminated employees entitled to benefits but			
not yet receiving them	926	-	926
Current employees			
Vested	647	-	647
Nonvested	183	148	331
Inactive	5	1	6
			1,910

#### **Contributions**

Funding is provided by contributions from the Plan's members, the City and earnings on investments. Firefighters contribute 10.55 percent of their base salary and an additional 1 percent to fund the health insurance subsidy. The City's contribution is set by the City Council in conjunction with its approval of the City's annual budget, based on the actuarially determined contribution rate set by the Plan's consulting actuary.

Based upon the May 1, 2016 and 2015 actuarial valuations, the actuary recommended a City contribution rate of 30.05 percent and 28.21 percent, respectively. The Board of Trustees recognized a scheduled City contribution rate of 30.05 percent and 28.21 percent for 2018 and 2017, respectively, based on these valuations. The City Council contributed 2 percent toward the health insurance subsidiary for 2018 and 2017.

### Notes to Financial Statements April 30, 2018 and 2017

#### Retirement Benefits

Benefit terms for the Plan are established in the City administrative code and can only be amended by the City Council. The Plan provides retirement, survivor, disability as well as pre-retirement death benefits as noted below:

#### Tier I Members

The Plan provides retirement benefits, for those employees hired before April 20, 2014 (Tier I Members). Members become vested for retirement benefits after 10 years of service. Members who retire with 25 years or more of creditable service are entitled to an annual pension of 2.5 percent of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80 percent of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An automatic annual cost-of-living adjustment of 3.0 percent non-compounded, per year is provided in the Plan. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

#### Tier II Members

The Plan provides retirement benefits, for those employees hired on or after April 20, 2014 (Tier II Members). Members become vested for retirement benefits after 10 years of service. Members who retire with 27 years or more of creditable service are entitled to an annual pension of 2.5 percent of final average compensation multiplied by the number of years of creditable service, subject to a maximum limit of 80 percent of final compensation as defined in the Plan.

If members terminate prior to retirement and before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to City contributions and are refunded their member contributions with interest. Such refunds result in the forfeiture of all other benefits under the Plan and are reduced by a service charge if the terminated employee has less than five years of service.

An annual cost-of-living adjustment, not to exceed 2.5 percent non-compounded, per year is provided in the Plan if the prior year funding ratio is equal to or greater than 80 percent and will be equal to the percentage increase in the prior 12 months of the final national consumer price index. The Plan also provides for a minimum monthly payment of \$600 to all current and future service and disability retirees.

### Notes to Financial Statements April 30, 2018 and 2017

#### **Death Benefits**

If an active member dies, the following benefits shall be paid:

A funeral benefit of \$2,000 to the spouse or named beneficiary.

To the member's spouse until death, a pension equal to one-half of the member's accrued pension, but not less than 25 percent of the member's average final compensation. The minimum monthly benefit is \$275 to all spouses. Certain benefit provisions have been established for deaths sustained in the performance of a member's duties, or deaths of active members prior to retirement who have achieved 25 years or more of creditable service.

To the member's children, an allowance of \$100 a month each until the attainment of age 18, unless certain conditions are met whereby benefits may continue.

To the member's designated beneficiary or estate, if there is no surviving spouse or qualifying child, any remaining member contributions and interest.

If a retired member dies, the following benefits shall be paid:

To the member's spouse until death, a retirement benefit equal to one-half of the member's normal retirement benefit.

To the member's designated beneficiary or estate, if there is no surviving spouse, any remaining member contributions and interest.

#### Disability Benefits

Disability benefits are available for members and are based on an average final compensation. The Plan provides for a minimum monthly payment of \$600 to all current and future disability retirees.

#### Health Care Subsidy

Effective May 1, 1991, the Plan established a subsidy fund (subsidy). The City and active firefighters each contribute 2 percent and 1 percent of salary, respectively. Prior to April 1 of each year, the board of trustees of the Plan establishes the dollar value of the monthly subsidy. The monthly subsidy for the years ended April 30, 2018 and 2017 was \$450.

The subsidy is invested in both fixed income and equity securities and is stated at fair value. Investments totaled \$3,662,860 and \$3,536,988 at April 30, 2018 and 2017, respectively.

The actuarial valuations do not consider the subsidy's fiduciary net position, which at April 30, 2018 and 2017 were \$3,662,860 and \$3,536,988, respectively. According to the City ordinance that established the subsidy, if the fiduciary net position available for the subsidy is zero, the subsidy will no longer be available. For the years ended April 30, 2018 and 2017, City contributions for the subsidy were \$2,956,567 and \$2,895,756, respectively, and employee contributions were \$680,583 and \$616,638, respectively.

### Notes to Financial Statements April 30, 2018 and 2017

#### Note 3: Deposits and Investments

The City administrative code and ordinances passed by the City Council provide that Plan investments may include, but are not limited to, obligations of the U.S. government, state of Missouri and municipal corporations, including school districts, corporate bonds, real estate mortgages and common and preferred stocks. The Plan purchases investments from Securities and Exchange Commission registered securities broker-dealers and banks through its investment managers. Investments in U.S. Treasury obligations are held at the Federal Reserve Bank through the customer account of a financial institution.

#### **Investment Policy**

The asset type and classes, target allocation and ranges that have been approved by the Board are shown below. All percentages are based on market values. The Board has authorized Plan staff, with the guidance from the investment consultant, to rebalance the portfolio in accordance with the strategy guidelines below.

Asset Type and Class	Range	Target
Equities		
Large Cap Equity	10% - 20%	15%
Small Cap Equity	5% - 15%	10%
Non-U.S. Equity	10% - 20%	15%
Long/Short Equity	5% - 15%	10%
Global Equity	5% - 15%	10%
Fixed Income	25% - 35%	30%
Real Estate	5% - 15%	10%

#### Securities Lending Transactions

City ordinances and the Plan's Board policies permit the Plan to use investments of the Plan to enter into securities lending transactions – loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

The Plan has contracted with Northern Trust as its third-party lending agent to lend domestic equity and debt securities for cash collateral of not less than 102 percent of the market value and international debt and equity securities of not less than 105 percent of the market value. At April 30, 2018 and 2017, management believes the Plan has no credit risk exposure to borrowers because the amounts the Plan owes the borrowers exceed the amounts the borrowers owe the Plan. Contracts with the lending agent require it to indemnify the Plan if borrowers fail to return the securities, if the collateral is inadequate to replace the securities lent or if the borrowers fail to pay the Plan for income distributions by the securities' issuers while the securities are on loan; therefore, non-cash collateral is not recorded as an asset or liability on the financial statements.

### Notes to Financial Statements April 30, 2018 and 2017

	2018	2017
Market value of securities loaned	\$ 29,650,278	\$ 27,764,427
Market value of cash collateral received from borrowers	\$ 30,466,536	\$ 28,575,689

All securities loans can be terminated on demand by either the Plan or the borrower. The cash collateral received on each security loan was invested, in accordance with the Plan investment guidelines, in short-term funds. The maturities of the resulting investments generally match the maturities of the securities lending arrangements themselves. The Plan is not permitted to pledge or sell collateral received unless the borrower defaults.

#### **Custodial Credit Risk**

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the Plan's securities lending policy, \$29,650,278 and \$27,764,427 at April 30, 2018 and 2017, respectively, was held by the counterparty that was acting as the Plan's agent in securities lending transactions.

#### **Investment Concentrations**

The following presents investments that represent 5 percent or more of the fiduciary net position of the Plan, as of April 30, 2018:

Investment		Fair Value
Northern Trust Collective Funds	\$	72,481,834
Acadian Global Equity Fd		61,769,650
Pioneer Multi-Sector Fixed Income		60,261,731
Rock Creek Georgetown LTD CL		51,026,560
Marathon-London International Fund		46,852,545
Blackrock Strategic Income		40,999,281
Franklin Templeton Global Multisectorplus Trust Fund		30,829,994
JPMCB Special Situation Property Fund		28,938,229

### Notes to Financial Statements April 30, 2018 and 2017

The following presents investments that represent 5 percent or more of the fiduciary net position of the Plan, as of April 30, 2017:

Investment	Fair Value		
Pioneer Multi-Sector Fixed Income	\$	65,292,770	
Franklin Templeton Global Multisectorplus Trust Fund		64,093,349	
Acadian Global Equity Fd		54,963,829	
Rock Creek Georgetown LTD CL		48,943,957	
Marathon-London International Fund		41,573,845	
Northern Trust Collective Funds		39,695,872	
JPMCB Special Situation Property Fund		27,214,188	

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Plan. As of April 30, 2018 and 2017, the Plan's fixed income assets that are not government guaranteed represented 100 percent of the fixed income portfolio. The Plan has not established a policy with regard to credit risk. The following tables summarize the Plan's fixed income portfolio exposure levels and credit qualities at April 30, 2018 and 2017:

#### Average Credit Quality and Exposure Levels of Nongovernment Guaranteed Securities

Fixed Income Security Type	Fair Value pril 30, 2018	Percentage of all Fixed Income Assets	Weighted Average Credit Quality	
Money market funds Collective trusts - fixed income	\$ 6,902,566 146,060,263	5% 95%	Not rated Not rated	
	\$ 152,962,829	100%		

### Notes to Financial Statements April 30, 2018 and 2017

Fixed Income Security Type	Fair Value April 30, 2017	Percentage of all Fixed Income Assets	Weighted Average Credit Quality	
Money market funds Collective trusts - fixed income	\$ 13,771,821 143,393,924	9% 91%	Not rated Not rated	
	\$ 157,165,745	100%		

Each portfolio is managed in accordance with operational guidelines that are specific as to permissible credit quality ranges, exposure levels within individual quality tiers and the average credit quality of the overall portfolios.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Plan has not established a policy with regard to interest rate risk. The Plan actually owns an interest in the underlying assets of the collective trusts and the money market funds and the unit values are based on the fair value of their underlying assets.

#### Effective Duration of Fixed Income Assets by Security Type at April 30, 2018

Fixed Income Security Type	Fair Value oril 30, 2018	Percentage of all Fixed Income Assets	Weighted Average Effective Duration (Years)	
Money market funds** Collective trusts - fixed income	\$ 6,902,566 146,060,263	5% 95%	** 13.23	
	\$ 152,962,829	100.0%		

### Notes to Financial Statements April 30, 2018 and 2017

#### Effective Duration of Fixed Income Assets by Security Type at April 30, 2017

Fixed Income Security Type	Fair Value April 30, 2017	Percentage of all Fixed Income Assets	Weighted Average Effective Duration (Years)		
Money market funds** Collective trusts - fixed income	\$ 13,771,821 143,393,924	9% 91%	** 4.57		
	\$ 157,165,745	100.0%			

<sup>\*\*</sup>The Plan actually owns an interest in the underlying assets of the money market funds and the unit values are based on the fair value of their underlying assets. The money market funds do not have a maturity date, even though their underlying assets do have maturity dates of less than one year.

#### Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Plan's currency risk exposure, or exchange rate risk, primarily reside within the Plan's foreign debt obligations and foreign equity holdings through the Plan's various asset managers. The Plan's policy for each specific portfolio does not place limits on the amount of foreign exposure that can be held by the individual asset managers.

#### Annual Money-Weighted Rate of Return

For the years ended April 30, 2018 and 2017, the annual money-weighted rate of return on the pension plan investments, net of pension plan investment expense, was 9.53 percent and 12.89 percent, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

### Notes to Financial Statements April 30, 2018 and 2017

#### Note 4: Net Pension Liability

The components of the net pension liability of the City at April 30, were as follows:

	2018	2017
Total pension liability	\$ 756,871,994	\$719,980,737
Plan fiduciary net position	(540,393,237)	(506,697,663)
City's net pension liability	\$ 216,478,757	\$ 213,283,074
Fiduciary net position as a % of total pension liability	71.40%	70.38%

#### Note 5: Actuarial Methods and Assumptions

An actuary from Cheiron determines the total pension liability. The total pension liability as of April 30, 2018 and 2017 was determined based on an actuarial valuation prepared as of May 1, 2017 and 2016, respectively, rolled forward one year, using the following actuarial assumptions:

Inflation	2.5% per annum
Projected salary increases, including inflation	3.0% to 8.0% per annum, depending on age
Long-term investment rate of return, net of plan investment expenses, including inflation Mortality Tables:	7.25% per annum
Healthy	RP-2000 Combined Mortality Table Set forward
Disabled	one year RP–2000 Combined Mortality Table Set forward three years

The actuarial assumptions used in the May 1, 2017 and 2016 valuations were based on the results of the most recent actuarial expense study for the period of May 1, 2011 to April 30, 2016. The actuarial experience study is dated February 9, 2017.

For purposes of calculating the total pension liability, future ad hoc COLAs of 3.0 percent (simple COLA) were assumed to be granted in all future years, for Tier I Members. For Tier II Members, COLA will only be payable if the prior year's funding ratio is greater than or equal to 80 percent and will be equal to the percentage increase in the consumer price index, up to a maximum of 2.50 percent, payable at the 27<sup>th</sup> anniversary date of hire.

Notes to Financial Statements April 30, 2018 and 2017

#### Long-Term Expected Real Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best-estimates arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of April 30, 2018 and 2017 are summarized in the following table:

	April 3	0, 2018	April 30, 2017		
	<b>-</b>	Long-Term Expected	<b>T</b> 4	Long-Term Expected	
Asset Class	Target Allocation	Real Rate of Return	Target Allocation	Real Rate of Return	
Large Cap Equity	15%	8.51%	15%	8.49%	
Small Cap Equity	10%	9.77%	10%	9.72%	
Non - U.S. Equity	15%	9.71%	15%	9.67%	
Long/Short Equity	10%	7.25%	10%	8.24%	
Global Equity	10%	9.28%	10%	9.25%	
Fixed Income	30%	5.23%	30%	4.21%	
Real Estate	10%	7.51%	10%	7.51%	

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25 percent as of April 30, 2018 and 2017. In the professional judgment of the Plan's actuary, the funding policy of the Plan will result in the pension plan's projected Fiduciary Net Position being greater than or equal to the benefit payments projected for each future period. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments.

### Notes to Financial Statements April 30, 2018 and 2017

#### Sensitivity Analysis

The following sensitivity analysis presents the net pension liability of the City, calculated using the discount rate as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate as of April 30, 2018 and 2017:

		2018	
	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.25%)	(7.25%)	(8.25%)
Total pension liability	\$ 857,446,344	\$ 756,871,994	\$ 674,002,538
Fiduciary net position	(540,393,237)	(540,393,237)	(540,393,237)
Net pension liability	\$ 317,053,107	\$ 216,478,757	\$ 133,609,301
		2017	
	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.25%)	(7.25%)	(8.25%)
Total pension liability	\$ 815,011,904	\$ 719,980,737	\$ 641,314,547
Fiduciary net position	(506,697,663)	(506,697,663)	(506,697,663)
Net pension liability	\$ 308,314,241	\$ 213,283,074	\$ 134,616,884

#### Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of fiduciary net position.

Plan contributions are made and the total pension liability are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### Notes to Financial Statements April 30, 2018 and 2017

#### Note 7: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

#### Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at April 30, 2018 and 2017:

				Apr	il 30, 2018		
	Total Fair Value		Level 1		Level 2	Level 3	
Investments by fair value level

Total investments measured at the NAV		353,285,830					
Total investments measured at fair value	\$	510,118,808					

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of fiduciary net position.

Equity and short-term investment funds classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Certain collective trusts classified as Level 2 of the fair value hierarchy are valued using third-party pricing services based on market observable information such as market quotes for similar assets, as well as normal market pricing considerations such as duration, interest rates and prepayment assumptions.

The fair value estimates presented herein are based on pertinent information available to management as of April 30, 2018 and 2017. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

### Notes to Financial Statements April 30, 2018 and 2017

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

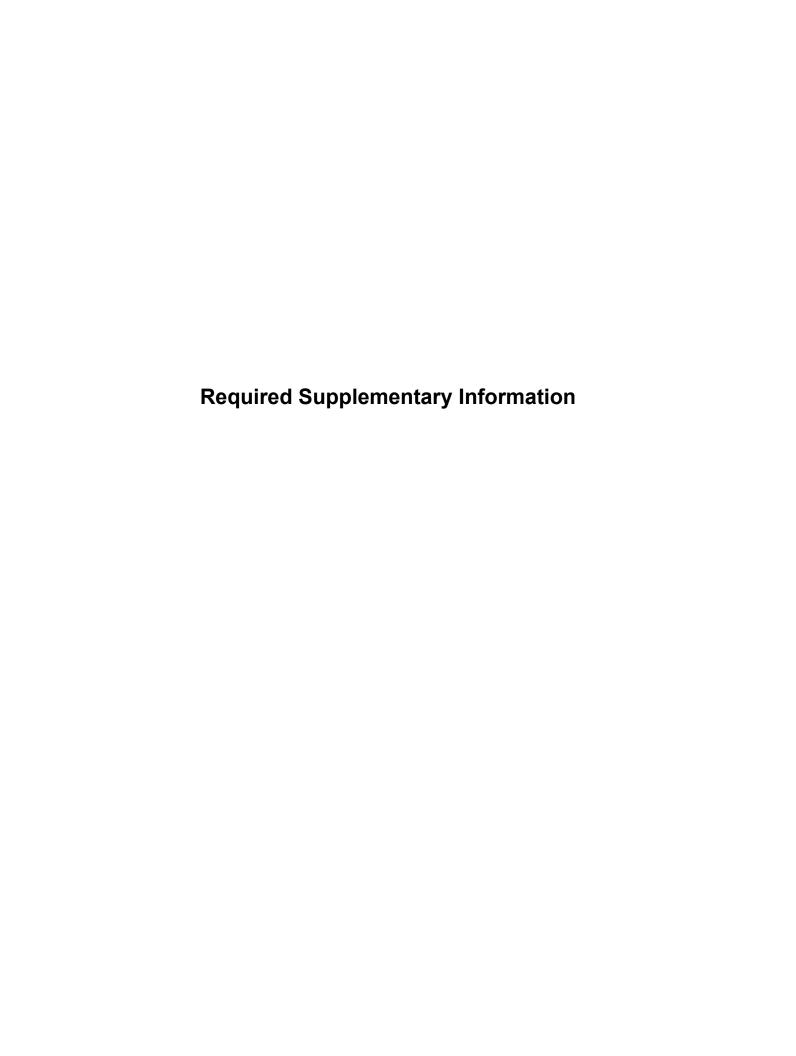

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented below.

		April 30, 2018				
	 Fair Value	Unfu Comm	nded itments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period	
Collective trusts - fixed income (A)	\$ 132,091,006	\$	-	Daily	1 Business Day

- (A) This category is a fixed income fund that is traded daily. The fund includes U.S. and Non-U.S. government, securitized and corporate bonds, and currencies across the entire quality spectrum.
- (B) This category includes collective trust funds. Each invests in equity securities both on the national and international markets listed on public market exchanges and are traded daily.
- (C) This category is a limited partnership. Investments are open-ended Global Core/Core Plus infrastructure investments.
- (D) This category is a common collective trust redeemable quarterly with a 45 day and 1 day notice period, respectively. Investments are open-ended U.S. Commercial real estate.
- (E) This category is a limited partnership domiciled in the Cayman Islands. Investments provide exposure to more than 60 "hedge fund risk premiums" across nine broad strategy groups (event driven, convertible arbitrage, equity market neutral, dedicated short bias, long/short equity, emerging markets, global macro, managed futures and fixed income relative value) with a dynamic and disciplined investment process that aims to provide risk-balanced, long-term exposure to the underlying strategies. The result is a high risk-adjusted expected return stream with low correlation to traditional asset classes.

### **Required Supplementary Information**

Annual contribution deficiency (excess)	\$ (119,494)	\$ (27,804)	\$ (50,380)	\$ (96,394)	\$ 4,386,256	\$ 2,279,871	\$ 2,442,068	\$ 2,530,135	\$ 6,658,513	\$ (843,477)
Covered payroll	\$ 64,492,241	\$ 57,625,619	\$ 59,294,555	\$ 59,410,476	\$ 58,356,072	\$ 60,062,558	\$ 51,983,293	\$ 51,934,305	\$ 53,612,509	\$ 51,168,515
Actual contributions as a percentage of covered payroll	27.04%	29.08%	28.05%	27.37%	20.21%	21.84%	22.32%	19.83%	19.52%	20.17%

### Required Supplementary Information Schedule of Investment Returns Last Ten Fiscal Years

Fiscal Year Ending April 30	2018	2017	2016	2015	2014
Annual money-weighted rate of					
return, net of investment expense	9.53%	12.89%	-1.50%	7.19%	10.85%

**Note to schedule:** This schedule is intended to show a 10-year trend. Additional years will be reported as they become available.

### City of Kansas City, Missouri

### Firefighters' Pension System

### Notes to Required Supplementary Information April 30, 2018 and 2017

**Changes of benefit and funding terms** – The following changes to the plan provisions were reflected in the valuation as listed below:

#### 5/01/2016 Valuation

• No changes to benefit or funding terms.

#### 5/01/2015 Valuation

• No changes to benefit or funding terms.

#### 5/01/2014 Valuation

• Effective April 20, 2014, member contribution rates increased by 1.00 percent and Tier II have been added to the Plan.

#### 5/01/2011 Valuation

• According to Ordinance No. 100606, members can now designate at retirement that a qualified domestic partner receive death benefits.

Changes in actuarial assumptions and methods – The following changes to the plan provisions were reflected in the valuations as listed below:

#### 5/01/2016 Valuation

• No changes in actuarial assumptions or methods.

#### 5/01/2015 Valuation

- All assumptions have been revised based on the results of the experience study conducted for the period May 1, 2011 to April 30, 2016. These assumptions were incorporated into the GASB 67 disclosures and net pension liability calculation for the Plan's 2017 fiscal year-end which are based on the 4/30/2015 Valuation.
- An administrative expense assumption of .35 percent of payroll was added. Retirement rates added for Tier II.

#### 5/01/2014 Valuation

• The investment return assumption decreased from 7.75 percent to 7.50 percent.

### Notes to Required Supplementary Information (Continued) April 30, 2018 and 2017

#### 5/01/2012 Valuation

- An actuarial experience study was conducted and resulted to changes in the following assumptions:
  - o Inflation
  - o Real wage growth
  - Termination rates
  - o Retirement rates
  - Disability rates
  - o Duty related disability percentage
  - o Spouse age difference
  - o Marriage assumption
  - Health mortality
  - o Disabled mortality

#### 5/01/2009 Valuation

- The minimum asset corridor, used in the asset smoothing method, changed from 85 percent to 80 percent and the maximum asset corridor changed from 110 percent to 120 percent.
- The Amortization of UAL changed from a 20-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009 to a 30-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009.

#### 5/01/2008 Valuation

- The minimum asset corridor, used in the asset smoothing method, changed from 90 percent to 85 percent.
- The Amortization of UAL changed from a 30-year rolling level percent of pay amortization method to a 30-year fixed level percent of pay amortization of the May 1, 2008 UAL and a 20-year fixed level percent of pay amortization method for changes to the UAL for the years on and after May 1, 2009.
- The investment return assumption was changed from 8.00 percent to 7.75 percent.

### Notes to Required Supplementary Information (Continued) April 30, 2018 and 2017

The following actuarial methods and assumptions were used to determine the actuarially determined employer contribution reported in the most recent fiscal year, which was based on the May 1, 2016 actuarial valuation:

Valuation Date May 1, 2016

Timing Actuarially determined contribution rates are calculated based on the

actuarial valuation one year prior to the beginning of the plan year.

Key Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method Entry Age

Asset valuation method 5-year smoothed market. 80% / 120% corridor around market value.

30-year layered amortization as a level percent of pay for changes to the

unfunded actuarial liability on or after 5/1/2008.

Discount rate 7.50%
Amortization growth rate 3.00%
Price inflation 2.50%

Salary increases Ranges from 8.0% to 3.0%

Cost-of-living adjustments Tier I: 3.00% simple

Tier II: 2.50% simple payable at 27th anniversary of date of hire if the

prior year's funding ratio is greater than or equal to 80%

Mortality Healthy: RP-2000 Combined Mortality Table set forward one year for

males and females

Disabled: RP-2000 Combined Mortality Table set forward three years

for males and females
