

1 Call The Police

Report all suspicious people and vehicles to KCPD. Nothing is too small to be reported. If you SEE something, SAY something!

2 Assess Your Home

Trim trees, bushes and hedges around your home. Don't give thieves a place to lurk unseen. Secure and lock doors and windows.

3 Install an Alarm

Activate your alarm and know how to use it. Customize alerts and timers based on your needs.

4 Light Up Your Yard

Use timed flood lights in place of motion sensors. Have lights on from dusk to dawn. Cut bushes and trees away from your home to prevent dark corners.

5 Be Selective

Be cautious of who you allow inside your home. Be aware that solicitors may be trying to gain access to evaluate your home.

6 Make Smart Posts

Do not post your vacation on social media until you return. Be cautious when posting pictures of your home or valuables.

7 Use Our Resources

Have a security assessment done for your home or business. Contact KCPD to schedule an appointment!
