

1 Call The Police

Report all suspicious people and vehicles to KCPD. Nothing is too small to be reported. If you SEE something, SAY something!

2 Pay Attention

Be aware of your surroundings, especially if traveling with children. Stay in well-lit areas.

3 Don't Get Distracted

Keep your eyes up and do not allow yourself to be distracted. Try not to walk while looking at your phone.

4 Take a Buddy

If possible, travel with another person. If you are alone and feel unsafe, call someone and keep them on the phone so that they can dial 911 if needed.

5 Be Selective

Do not meet strangers to sell items at your home or a remote location. Visit RCSD.net to see a list of our internet safety locations.

6 Know What to Say

If you are a victim, call 911 and give them your location and any information about the person you can remember (looks, clothing, direction they went and what they took from you).

7 Make Smart Posts

Be cautious when posting pictures of your electronics or valuables. Limit your followers to those you have met personally.
