General Overview

Executive Summary

As part of the American Rescue Plan Act (ARPA) from the U.S. Treasury the City of Kansas City, Missouri (KCMO & the City) received a tranche in May 2021, and an additional tranche in June 2022 each in the amount of \$97,388,188.00. These funds are intended to combat the negative effects of the COVID-19 pandemic and revitalize the City. This report will provide updates on projects both planned and initiated prior to September 30, 2024. Please see previous quarterly or annual reports for information on projects completed before July 1, 2024.

A community led analysis on the impacts of the pandemic was conducted by experts and community leaders to identify the key areas of need. With these results, ARPA funds were allocated across departments, non-profits, beneficiaries, and local businesses to pave the way for a successful recovery, and so the work has begun.

The City has been working on implementing programs utilizing combinations of ARPA and general funds to finance the construction and rehabilitation of neighbourhoods and affordable housing units. The Housing Trust Fund was created to support housing stability programming citywide, and the City's [Rebuild KC](#) initiative will provide grants to finance a variety of applicant-requested neighbourhood improvements. Additional details on projects supported by these programs will be provided in future reports as grants are awarded.

The primary goal of KCMO leadership is to utilize the ARPA funds so that KCMO is in a stronger economic position than it was pre-pandemic. Initial stages include providing all residents access to public health services to keep themselves and their families safe. All the on-going funded projects are outlined and described in the *Project Inventory* section of this report. KCMO has strategies, structures, and procedures in place to accurately track and monitor the impacts of each of these projects. In this and future quarterly reports, the impact will be displayed, in addition to the information required by the Treasury.

The ARPA Program is providing unprecedented opportunities for leadership to help make KCMO a more inclusive, successful, metropolitan area by aiding local businesses, increasing employment opportunities, and providing new opportunities for homeless residents. The funding will keep the people of the City safe far beyond this public health crisis. Those who will be given shelter can re-start their lives and find employment in the local KCMO job market. By investing or leveraging this funding, KCMO can remain a resilient metropolitan area.

Table of Allocations and Obligations by Expenditure Category

Category		Allocations	Cumulative Obligations to date (\$)
1	Public Health	\$21,222,321.68	\$16,971,571.41
1.1	COVID-19 Vaccination	\$2,156,421.39	\$521,121.80
1.2	COVID-19 Testing	\$1,109,229.69	\$516,342.96
1.3	COVID-19 Contact Tracing	\$553,473.96	\$553,473.96

Category		Allocations	Cumulative Obligations to date (\$)
1.5	Personal Protective Equipment	\$458,419.55	\$127,713.57
1.7	Other COVID-19 Public Health Expenses	\$839,714.75	\$801,552.84

7	Administrative	\$1,252,041.82	\$68,192.83
7.1	Administrative Expenses	\$1,154,252.04	\$68,192.83
TOTAL EXPENSES		\$181,162,315.17	\$8,057,468.26

**Reallocation of expenses between expense categories to reflect use of funds more accurately has created some negative balances in the current quarter totals but overall balances are still positive (debits) in all categories.

Performance Report

Project Inventory

KCMO has used SLFRF funds for multiple projects that implement evidence-based interventions. Listed below are short descriptions of each applicable project, along with breakdowns of the amount of funds that have been dedicated to evidence-based interventions.

KCMO is also collecting performance metrics for each of these projects to provide a base of strong causal evidence. Such metrics are included for situational awareness.

Missing UEI Justification

As of October 2023, updated reporting guidelines require recipients to provide either a Unique Entity Identifier (UEI) for each subrecipient, or a justification for why the subrecipient has not obtained a UEI. Many of the subrecipients for several City-wide initiatives, such as trash cleanup (EC 1.14), lawn maintenance for land bank properties (2.23), and Rebuild KC do not currently have a UEI. Each of these projects required cooperating with a dozen or more individual vendors with no federal work history, meaning the subrecipients had no prior need for a UEI or experience in navigating SAM.gov to acquire one. This, coupled with recent timing of the requirement, has resulted in many subrecipients not having UEIs.

The City is working to rectify the situation by providing training to the subrecipients on how to obtain UEIs. Until then, the City will be using Justification No. 3 from the Compliance and Reporting Guidance, which states: “Services the subrecipient provided were completed after April 4, 2022, and recipient is continuing to work to collect its subrecipient’s UEI.” UEI information for the relevant subrecipients will be provided in future reports.

COVID-19 Vaccination

Award Description

These are the costs of vaccinations and vaccination events including the salaries and contracts of event workers as well the costs included in the set-up/wrap-up of the event, supplies, vaccines, syringes, alcohol wipes, and other supplies/equipment.

Use of Evidence

All the funds in this project are being allocated towards evidence-based interventions.

General Information	
Expenditure Category	EC 1.1
Project Status	Completed less than 50%
UEI	JY2DYJXPQW56
Location	2400 Troost Ave, Kansas City, MO 64108
Award #	N/A
Award Date	05/01/2021
Award Amount	\$2,156,421.39
Award Payment Method	Direct Payment
Expiration Date (if loan)	N/A
Primary Place of Performance	2400 Troost Ave, Kansas City, MO 64108
Related Projects (and IDs)	Health1
PoP Start	05/01/2021
PoP End	12/31/2024
Quarterly Obligation Amount	\$0.00
Quarterly Expenditure Amount	\$0.00

COVID-19 Testing

Award Description

Costs in this section are associated with community and employee testing including the salaries and all contracts of personnel associated with these efforts as well as the cost of the tests and all medical supplies related to testing. Large outreach testing at community centers, schools and other large venues may also include expenses for transport of equipment if more than one event is occurring on the same day.

Use of Evidence

All the funds in this project are being allocated towards evidence-based interventions.

General Information	
Expenditure Category	EC 1.2
Project Status	Completed less than 50%
UEI	JY2DYJXPQW56
Location	2400 Troost Ave, Kansas City, MO 64108

PoP End	12/31/2024
Quarterly Obligation Amount	\$692.58
Quarterly Expenditure Amount	\$692.58

Other COVID-19 Public Health Expenses

Award Description

This category includes administrative and enforcement expenses and obligates funds for a public engagement campaign designed to raise community awareness of COVID-19 preventive measures and increase public trust in City-led vaccination efforts. These costs include the salaries and contracts of investigative/enforcement personnel. Personnel receive and investigate complaints, provide material on COVID-19 from CDC as well as local and State Health Department guidance and regulation. Information on testing and vaccination clinics is also made available. When necessary, forced closure of some locations for failure to comply with safety requirements has been enforced with the priority always being the overall health and safety of the Kansas City residents and visitors.

Use of Evidence

All the funds in this project are being allocated towards evidence-based interventions.

General Information	
Expenditure Category	EC 1.7
Project Status	Completed more than 50%
UEI	JY2DYJXPQW56
Location	2400 Troost Ave, Kansas City, MO 64108

Award Date	05/01/2021
Award Amount	\$839,714.75
Award Payment Method	Direct Payment

Expiration Date (if loan)	N/A
Primary Place of Performance	2400 Troost Ave, Kansas City, MO 64108
Related Projects (and IDs)	Health5
PoP Start	05/01/2021
PoP End	12/31/2024
Quarterly Obligation Amount	\$104,716.32
Quarterly Expenditure Amount	\$104,716.32

Community Violence Interventions

Award Description

The funds allocated to this category will be used to support evidence-based approaches and strategies to reduce violence through tailored community-centered initiatives. These programs and initiatives are organized and led by staff trained in violence interruption, communication, and approaches tailored to the environment. The programs include multidisciplinary strategies to engage individuals and groups to prevent and disrupt the cycles of violence and retaliation, address trauma, and share resources with individuals and families throughout the community. Prevention, education and providing alternative opportunities for recreation and positive interactions are also part of the curriculum.

General Information	
Expenditure Category	EC 1.11
Project Status	Completed more than 50%
UEI	JY2DYJXPQW56
Location	2400 Troost Ave, Kansas City, MO 64108

PoP End	12/31/2024
Quarterly Obligation Amount	\$49,816.00
Quarterly Expenditure Amount	\$49,816.00

Performance Metrics

- The number of Aim4Peace street conflict mediations resolved during the reporting period: 8
- The number of participants who received case management services through the Aim4Peace Program during the reporting period: 44
- The number of shootings in Aim4Peace beats to which Aim4Peace staff responded through street or hospital response: 12

Other Public Health Services

Award Description

These funds are obligated for a public engagement campaign designed to raise community awareness of COVID-19 preventive measures and increase public trust in the City-led vaccination efforts. Focus is placed on language and reading and comprehension levels to ensure that important information is understandable and relatable to as many citizens as possible.

Use of Evidence

All the funds in this project are being allocated towards evidence-based interventions.

General Information	
Expenditure Category	EC 1.14

PoP End	12/31/2024
Quarterly Obligation Amount	\$281,616.82
Quarterly Expenditure Amount	\$281,616.82

Performance Metrics

- Number of Kansas City residents seen for Primary Care during reporting period: 50
- Number of Kansas City residents seen for Behavioral Health Care during reporting period: 4

Four Street Sweepers (Water Dept)

Award Description

The pandemic brought increases in waste, trash and debris including increased dumping and street waste from trash left outside. The dumping and street waste, if left alone, can bring animals, collect storm water (which brings insects and disease), and block the flow of storm and water run-off in streets. In some cases, this can clog the sewers and even cause damage to the stormwater/sewer infrastructure. Clean, safe water and open spaces in neighborhoods are essential pieces in the puzzle of creating a healthy, productive life and assist in keeping our overall eco-system cleaner. The Water Department is responsible for the street cleaning in the

City of Kansas City, Missouri. By purchasing four (4) street sweepers, the waste in the streets that risk the storm drains and sewers will be reduced, and the risk of damage can be reduced significantly. The sweepers will be assigned to the lower-income areas of the city where litter and dumping is of higher concern, and they will be equipped with GoFleet/Geotab GPS so management will have the opportunity to monitor daily outcomes and utilization.

- *Unit 23069 In service* - Crane Carrier LET2-23 equipped w a Curbtender Warrior Sweeper
- Unit 24013 placed in service October 23 – will be reported in next quarterly report.

Units on Order:

- 2 Schwarze Twister bodies/ M2-106 mechanical chassis
- 2 Schwarze Avalanche bodies/M2-106 regenerative air-sweepers chassis
- 1 LS125 Electric Sub-Compact Sweeper

Recycling Program

Award Description

The stay-at-home orders, isolation and quarantines were part and parcel of the pandemic. Many companies increased positions that worked from home, schools switched to remote learning and many of us began spending more and more time at home. This led to an increase in goods being delivered, consuming more ready-made meals, food deliveries, cleaning out of spaces, home remodeling, etc. These all created a significant increase in trash, bulky items for pick-up, recycling, dumping issues, yard refuse and other waste issues. When trash, recycling and other waste is not handled properly there are issues with animals, insects, standing water, blight,

issues with drainage to sewers and safety for our citizens. Programs like a rolling bin recycling program, increasing bulky item pick-up, providing 400 neighborhood dumpsters, creating neighborhood composting pilot programs, and recycling education campaigns will go a long way to improving the health and safety of our neighborhoods while providing healthier environments for our citizens to live and work.

Quarterly Expenditure Amount	\$67,457.93

First 3 Year of Operations Trash Barrel/Recycling Program

Award Description

The stay-at-home orders, isolation and quarantines were part and parcel of the pandemic. Many companies increased positions that worked from home, schools switched to remote learning and many of us began spending more and more time at home. This led to an increase in goods being delivered, consuming more ready-made meals, food deliveries, cleaning out of spaces, home remodeling, etc. These all created a significant increase in trash, bulky items for pick-up, recycling, dumping issues, yard refuse and other waste issues. Providing new, larger wheeled recycling bins for residents that can hold more recyclable products will not only keep the items from spilling out or blowing away but encourage residents to recycle more. The bins will also be easier to transport than the small tubs currently in use. The funds allotted to this program will provide the bins, the allocation, prep, and delivery of the carts as well as the maintenance of the bins for the first three years.

Public Sector Workforce: Admin

Award Description

These funds are awarded to provide for the administrative needs of the public sector workforce. The public sector being the part of the economy controlled by the government. The City of Kansas City, Missouri utilizes training opportunities, equipment, education and any form of technology as opportunities are available to increase staff abilities, knowledge in appropriate areas based on assignment, growth in their chosen fields, self-improvement and the ability to assist the community.

Trash Clean-Up/Litter Removal

Award Description

The stay-at-home orders, isolation and quarantines were part and parcel of the pandemic. Many companies increased positions that worked from home, schools switched to remote learning, and many began spending more and more time at home. This led to an increase in goods being delivered, consuming more ready-made meals, food deliveries, cleaning out of spaces, home remodeling, etc. These all created a significant increase in trash, bulky items for pick-up, recycling, dumping issues, yard refuse and other waste issues. Dumping on vacant properties or properties owned by those who are unable to manage their properties such as the elderly/disabled, is a common occurrence. This causes dangerous and unhealthy situations in neighborhoods, especially with children. This program works with neighborhoods to identify those properties and work to clean them up making them safer. Those properties are then more attractive and likely to be purchased and maintained.

ReBuild KC

Award Description

ReBuild KC is a program administered by the Neighborhood Services Department that provides grants for unique opportunities for organizations and individuals to build better, stronger neighborhoods. ReBuild KC is using American Rescue Plan Act (ARPA) funds to finance a variety of applicant-requested neighborhood improvements. This initiative is part of the City's plans to shift the department to a more solution-oriented team that is responsive to residents.

ReBuild KC projects encourage community participation and investment, provide job creation and employment training programs, support blight elimination and activities that promote healthy and safe communities. After more than 4,000 hours of review by city staff, the City Council approved 210 ReBuild KC proposals out of the first round of 1,215 applications. A project breakdown will be provided in future reports as contracts are awarded to specific projects and the work is initiated.

Minor Home Repair

Award Description

There are many individuals and families in Kansas City that, while they have been able to buy their own home, struggle to maintain it. The pandemic increased that strain on many of those same families, most of which live paycheck to paycheck. The Housing Department Minor Home Repair Program works with small business contractors and local organizations to provide life-changing home improvement for families in Kansas City. New roofs, HVAC repair and/or replacement, foundation repair, etc. for low-income families and individuals, especially those with young children or older individuals.

IT Modernization and Administrative Costs

Justification

The pandemic brought a lot of changes to both our economic system and our public health outlook. Among these changes is a drastically increased reliance on information technology. Not only have many companies and institutions switched to either a hybrid or an entirely remote model, but they've begun to use programs and tools to facilitate that transition on a scale never seen. This shift has highlighted a long-needed overhaul of KCMO's IT infrastructure. Remote work has proven to be a safe and effective way to protect city employees' health while maintaining productivity. To meet the increased demands of a primarily remote workforce and modernize Kansas City's out of date IT Infrastructure, Kansas City has allocated \$5,558,745.00 to modernize its IT infrastructure as well as \$750,000.00 to the Finance Department to procure budgeting software.

The framework set up by the Final Rule helps state and local governments respond to the COVID-19 public health emergency and its negative economic impacts. Utilizing this framework, most of Kansas City's IT infrastructure modernization will fall under expenditure category 3.5 which allows for expenditures on "Technology and tools to effectively develop, execute, and evaluate government programs" and "Technology infrastructure to adapt government operations to the pandemic (e.g., video-conferencing software, improvements to case management systems or data sharing resources), reduce government backlogs, or meet increased maintenance needs".

During the past few years, the City has learned that many of its employees have been working with underpowered and outdated equipment, creating a strong need for an IT overhaul. While most of the City’s IT projects fall under EC 3.5, as they are related to specific projects aimed at addressing negative health and economic impacts of COVID-19, some will fall under EC 7.1 for “Administrative Expenses”. These updates have become necessary both for the continued functioning of the City’s government as well as its capacity to effectively combat the various impacts of the COVID-19 public health emergency.

To effectively develop, execute and evaluate government programs, Kansas City has invested in a handful of software packages that will provide security, ease of workflow, and efficiency, as well as facilitating smoother cooperation between all the City’s employees, no matter where they are located. These programs include budgeting software such as Carahsoft, and contract renewal and management programs including Reality Technology Inc. and Bonfire.

To adapt government operation to the pandemic, the City has purchased hardware including server equipment (ITCYB) and PC Lifecycle computers with accessories (ITPCLC) for its offices and employees. Many of these employees were using outdated software and desktops, making the transition to remote work difficult for some and impossible for others. New computers and software were purchased, and temp employees will be hired to facilitate a smooth transition to the new technology.

As this project develops, updates will be made to the report and the justifications for each expenditure. Many of these investments were long overdue before the pandemic and are now necessary for the continued functioning of the Kansas City Government and will prepare the City for future complications or crises.

CDWG

Award Description

This portion of the IT Modernization Project includes the purchase of the equipment for the servers (ITCYB) and PC Lifecycle computers with accessories (ITPCLC).

Project Demographic Distribution

One of the primary goals of the KCMO ARPA strategy is to use the funding as an opportunity to provide housing, whether temporary or long-term, to residents of Kansas City. The City has used \$3,000,000 of these funds to provide temporary housing to the homeless. These funds directly addressed the increased need for transitional shelter that exists during this period of economic uncertainty. In addition, projects have been funded that will enable those who do not know how to seek shelter or social services obtain the assistance they require.

A portion of the KCMO ARPA award (through the completed aSteam Village project) has been set aside to provide broadband access to these disadvantaged communities to ensure that they have the right resources and information to succeed within the KCMO community.

Furthermore, \$15,000,000 has been allocated to community-led grants through the on-going ReBuild KC program. These projects have started to report their evidence-based interventions and will continue to do so as they head towards closeout.

All programs targeting marginalized communities will be publicized throughout the city through a variety of mediums. Ongoing partnerships with Legal Aid of Western Missouri, Homesteading Authority, Land Bank, and other Northeast Kansas City neighborhoods will enable the programs to reach a large audience and to achieve the greatest physical and economic impact. Many of these programs will focus on the Historic Northeast City, which has many neighborhoods that will benefit from housing and broadband assistance.

Programmatic Data

KCMO is also collecting performance metrics for each of these projects to provide a base of strong causal evidence. Such metrics are included for situational awareness. Projects that have yet to be executed will display intended performance metrics in lieu of quantitative data. Note that the intended performance metrics are subject to change and may or may not be fully reported on in subsequent reports. For projects completed prior to the quarter covered in this report (ending on September 30, 2024), please see previously submitted Project Expenditure Reports for the information associated with them. Projects that have yet to be started but have Treasury required metrics that need to be reported per their Expenditure Category are listed here.

Water Department

Performance Metrics

- Miles swept during reporting period (quarterly) – 204 miles. Sweeper 23069 has been in Fleet Maintenance.
- Amount of trash (volume) cleared from street during reporting period – Not able to track this because trash is collected in one receptacle.

Other Required Programmatic Data: Required Programmatic Data for Infrastructure Projects

Premium Pay (EC 4.1):

- Funds were used to provide Premium Pay to members of the Kansas City Fire Department and Ambulance Service. The staff members in these designated job classes are first responders who do not always have the option of wearing full PPE (firefighters) when responding to calls where they might be exposed to positive individuals. Or as in the case of firefighter/paramedics and ambulance service staff, they are placed at higher risk due to continued exposure to ill residents on each call. In just about all instances social distancing is not something staff in these job classes are able to accommodate, their jobs require them to live in quarters together, ride in vehicles/trucks together in close quarters, work in tight spaces on ill patients, etc. The risk of exposure to COVID-19 is exponentially higher.

Revenue Replacement (EC 6.1):

- For FY2023 funds were used to pay the salaries of Paramedic and Fire Department Staff (first responders) used in medical emergency and fire calls. Staff have been placed at high exposure to COVID-19 resulting in actual cases, quarantining of staff, etc. Funds covered allowable period during this fiscal year - **\$24,633,550.00**. For FY2022 funds were used to pay the salaries of Paramedic and Fire Department Staff (first responders) used in medical emergencies and fire calls. Staff have been placed at high exposure to COVID-19 resulting in actual cases, quarantining of staff, etc. Funds covered allowable period of March 2021 through January 2022 - **\$66,227,188.00**. The salaries of First Responders are considered, by the nature of their work, allowable costs. An additional amount of **\$6,100,000.00** was used to offset the cost of Parks & Recreation staff salaries to maintain operations during the pandemic that had to remain open and on-call during the same time. To date a total of \$96,960,738.00 has been used for Revenue Replacement.

Required Programmatic Data for Administration

All Administrative Expenses (EC 7.1):

The position of Grants Management Coordinator was filled on November 22, 2021, to assist primarily in managing the ARPA program as well as assist all other departments in managing funds from ARPA allocated to their programs. This position will be charged to the grant. Additional expenses will include contract services provided by Washington Business Dynamics for guidance on the use of ARPA funds as well as some charges for some Finance/Budget software and IT modernization upgrades. The upgrades will increase security while also allowing remote access to staff during major events that require off-

premises or remote work such as during the pandemic. The goal is continuous city services for our community.
